Annual Report 2003

FRANCHISE TAX BOARD

Gerald H. Goldberg, Executive Officer

The *California Franchise Tax Board Annual Report of 2003* is a summary of the department's major program activities during the 2003 calendar year. It is also a detailed, statistical profile of California's individual and business taxpayers who filed returns in 2003 for the 2002 taxable year, and a profile of California homeowners and renters who filed claims in 2003 for partial reimbursement of property tax paid in 2002.

The *California Franchise Tax Board Annual Report of 2003* was published in December 2004 and is on the Franchise Tax Board website at: <http://www.ftb.ca.gov/aboutftb/annrpt/2003/2003ar.pdf>.

Introduction

The Franchise Tax Board

History

On March 1, 1929, FTB's predecessor, The Franchise Tax Commission, was established by the Bank and Corporation Franchise Tax Act (Stat. 1929, Ch. 13). Six years later, the Legislature created the state's personal income tax with the passage of the Personal Income Tax Act of 1935 (Stat. 1935, Ch. 320). On January 1, 1950, the Commission, administered by Charles J. McColgan, was replaced by a three-member Board, who appointed the first Executive Officer, John J. Campbell. Mr. Campbell served until his retirement in 1963, and was succeeded by Martin Huff until his retirement in 1979. After a brief period of interim Executive Officers, the department's current Executive Officer, Gerald H. Goldberg, accepted his appointment in 1980.

Structure

The Franchise Tax Board (FTB) consists of the California State Controller (who chairs the FTB), the Chair of the State Board of Equalization, and the Director of the Department of Finance. During 2003, the three-member board was chaired by State Controller Steve Westly. The other board members were Carole Migden, Steve Peace and Donna Arduin. The Board's staff (the department) is directed by an Executive Officer appointed by the Board and confirmed by the Senate.

On December 31, 2003, FTB employed 5,042 permanent full and part time employees in the Sacramento central offices, sixteen field offices located throughout California, and offices in Chicago, Houston, Manhattan, and Long Island. During the Personal Income Tax filing period, 1,541 additional employees were temporarily hired to provide assistance to taxpayers and process their returns.

Responsibilities

The Franchise Tax Board is responsible for administering two of California's major tax programs: Personal Income Tax and the Corporation Tax. The FTB also has responsibility for administering the Homeowner and Renter Assistance (HRA) program, and other non-tax programs and delinquent debt collection functions, including child support debt collections and delinquent vehicle registration debt collections on behalf of the Department of Motor Vehicles. In 1999, the California Legislature gave FTB the additional responsibility for procuring, developing, and implementing the statewide child support automation development project.

Year in Review

Calendar year 2003 was a year of unprecedented state budget deficits that presented the Franchise Tax Board with a three-pronged challenge: reduce the department's 2003/04 budget by \$27 million and 480 positions; continue to find new ways to generate additional General Fund revenues; and improve the effectiveness and efficiency of its core business responsibilities. The challenge was met by focusing on two major areas: the empowerment of taxpayers, qualified representatives, and professional tax preparers to access information, file returns, and manage their accounts, thus reducing their dependence on public service staff; and the enhancement of departmental efforts to ensure that all taxpayers pay their fair share of taxes.

Taxpayer Empowerment

FTB Website Expansion

Franchise Tax Board is working to move taxpayers toward technological solutions to get information and forms online, any time. In 2003, the number of visits to the FTB website grew by 73.6%, from 32.7 million in 2002 to 56.7 million in 2003.

Online Electronic Installment Agreement Expansion

FTB implemented the first full year of its Electronic Installment Agreement (EIA) program in 2003. EIAs allow taxpayers to apply online and to calculate the amount and duration of monthly payments. Once an application is submitted, FTB provides the taxpayer with a confirmation number, which allows them to track the status of their request. This application provides an easy way for taxpayers to comply with the law and take care of their outstanding liabilities. During 2003, more than 90,000 taxpayers with financial hardship paid their state taxes under the terms of an installment agreement.

E-Pay Expansion

Franchise Tax Board also increased the availability of the e-payments function by providing additional ways for taxpayers to pay their obligations while saving the state 10 cents for each e-payment it receives. During the 2003 filing season, FTB received 1.2 million electronic payments.

NetFile Implementation

FTB implemented a pilot program called NetFile that allows the public to input their tax information and send it in a secure environment directly to FTB over the Internet at no cost to the taxpayer. In April 2003, FTB released the first phase of NetFile to the public and, in late September, released its latest version, which expanded the number of eligible users.

View Payment and Balance Due Implementation

In 2003, FTB implemented the final project phase of the personal income tax View Payment and Balance Due internet application. This phase allows taxpayers or their authorized representatives to access a taxpayer's account, including total tax liability, payments, credits, and penalties. The application also allows users to view all payments applied to a liability, their total balance due, and their estimated tax payments. Application access is available to taxpayers or their authorized representative 24 hours a day from the FTB website.

Ensuring Fair Share Tax Payments

Penalty and Interest Waiver Program

AB 2025 (Stats. 2002, Ch. 488) added Section 19444 to the Revenue and Taxation Code that created the Penalty and Interest Waiver Program. This program allowed FTB to focus on taxpayers whose accounts were considered high risk -- typically because the taxpayers resided out-of-state or out of the country. This program provided a full waiver of interest, penalties, and fees in exchange for full and immediate payment of any unpaid tax. Only those taxpayers who received a notice of eligibility from FTB could participate. During 2003, FTB recovered more than \$30 million, at a cost of only \$1 for every \$8 collected.

Abusive Tax Shelter Closures

In 2003, the California Legislature enacted new laws aimed at enhancing the Franchise Tax Board's ability to pursue and penalize abusive tax shelter investors, promoters, and organizers. Effective January 1, 2004, SB 614 (Stats. 2003, Ch. 656) and AB 1601 (Stats. 2003, Ch. 654) provided FTB with the tools to reduce the attractiveness of investing in abusive tax shelters beginning with tax year 2003, and also provided taxpayers with a four-month window of opportunity to voluntarily amend their prior year tax returns and to avoid penalties and potential prosecution. As a result, FTB conducted a major taxpayer education and outreach campaign during the latter half of 2003 in preparation of the law's implementation.

Docketed Protest Case Closures

Franchise Tax Board came closer to completing its 2001 goal of closing 112 old docketed business entity protest cases. By 2003 year-end, 93% of these cases were completed, accounting for \$2.2 billion (94%) of the amounts in controversy, and \$1.1 billion of sustained state tax revenues.

Resident Real Estate Withholding Program

Effective January 1, 2003, state tax withholding requirements from real estate sales by non-California residents was expanded by AB 2065 (Stats. 2002, Ch. 488) to include real estate sales by resident taxpayers. FTB quickly undertook significant outreach activities to notify taxpayers and escrow, real estate, and tax professionals of the new withholding requirements. As a result, \$839 million of accelerated Resident Real Estate Withholding revenue became available to the state's General Fund in 2003.

The following table provides a comparative synopsis of Personal Income Tax, Corporation Tax, and Homeowner and Renter Property Assistance claim return information received and processed by Franchise Tax Board in process years 2002 and 2003.

The State's General Fund

The state's General Fund is the primary source of revenues from which California's operating expenditures derive. The Franchise Tax Board serves California by administering programs that bring more than 50% of the state's General Fund revenue. In 2003, FTB accounted for \$40.9 billion, or 56% of the General Fund revenues. Personal Income Tax revenues accounted for \$34 billion or 46.6%, and tax revenues from business entities, including corporations, limited liability companies, general partnerships, limited partnerships, limited liability partnerships, estates and trusts, and exempt organizations accounted for \$6.9 billion or 9.4% of the General Fund.

Personal Income Tax

Introduction

History

The Personal Income Tax Act of 1935 created California's personal income tax (PIT), resulting in the receipt of 373,000 PIT returns and \$11.8 million in its first taxable year of 1935. By 1952, the number of PIT returns had increased to 2.3 million, with a tax liability of \$85.1 million. The following charts illustrate the continual growth of return volumes and tax dollars to the state's General Fund.

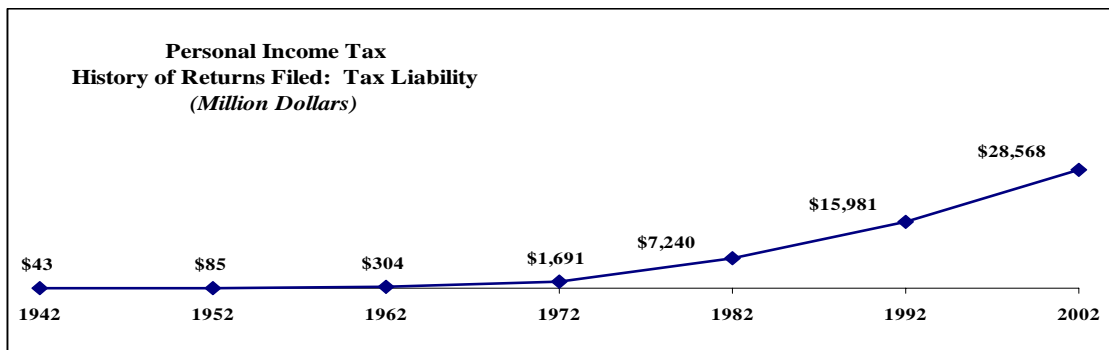

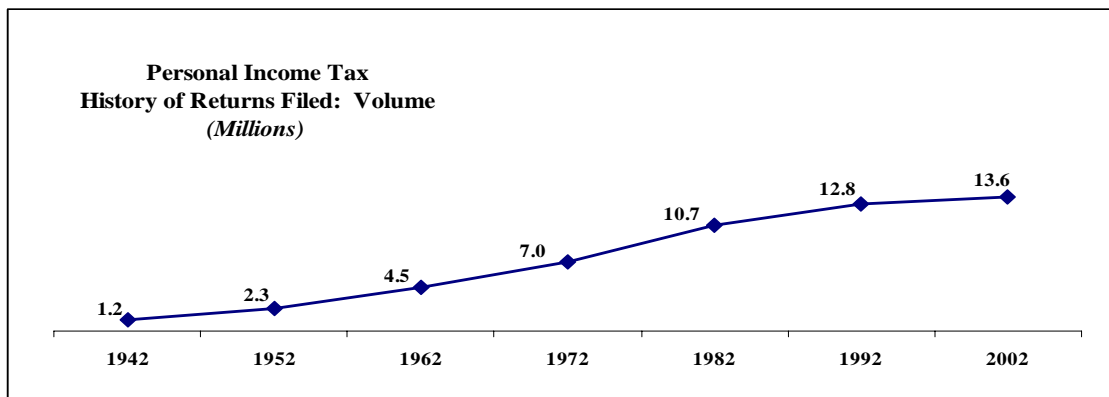

Exhibit Table B-1 *Comparison by Taxable Years* shows that, from taxable year 2000 to taxable year 2002, the total Adjusted Gross Income (AGI) declined from \$829.5 billion in 2000, to \$754.1 billion in 2001, to \$731.2 billion in 2002, or an overall reduction of 11.9%. Consequently, the amount of personal income tax dollars deposited to the General Fund declined by 29.2%, from \$40.4 billion in taxable year 2000, to \$31.3 billion in 2001, to \$28.6 billion in taxable year 2002.

The numbers of returns reporting incomes of \$200,000 and above also declined between taxable year 2000 and 2002, as illustrated by the following table:

Personal Income Tax TAX RETURNS WITH ADJUSTED GROSS INCOMES OF \$200,000 AND ABOVE A THREE-YEAR COMPARISON						
Adjusted Gross Income	Taxable Years		Percent Change		Taxable Year 2002	Percent Change
	2000	2001

5,000,000 and over	6,455	3,347	-48.1		2,522	-24.6
Total Returns	414,746	371,369	-10.5		349,845	-5.8

Interpreting the Statistical Data

Data Sources

The Personal Income Tax (PIT) data contained within this 2003 Annual Report are derived from two sources: the Tax Return Transactions File, and the PIT Sample. Within this section, statistical data are derived from the PIT Sample unless otherwise indicated.

Tax Return Transactions File

Franchise Tax Board maintains a PIT return transactions file from which tax return data from taxable year 2002 returns were extracted for this report. Statistical data pertaining to California's 58 counties were drawn from the PIT Transactions File as well as data presented in Appendix Tables B-6, B-7, and B-8, and in the Voluntary Contribution to Charitable Organizations table on page 30.

Personal Income Tax Sample

The Personal Income Tax Sample comprised 92,499 returns selected from 13.6 million returns filed in calendar year 2003. The stratified random sample selection was based on a combination of criteria, including the amount of both state and federal adjusted gross income (AGI) and the relative magnitude of item entries on form FTB-Schedule CA 2002. In this section and in Appendix Tables B-1 through B-5, B-9.1 and B-9.2, the data consist of 2002 California resident tax returns filed during the 2003 filing season. Appendix Table B-4G summarizes the part-year resident and nonresident return data.

Indexing Adjustments for Taxable Year 2002

Each year, California Consumer Price Index (CCPI) adjustments are made to certain tax provisions, including standard deductions, tax brackets, and exemption credits. These annual indexing adjustments are required by California law to compensate for inflationary factors, and are determined by the June-to-June percentage change in the CCPI. For taxable year 2002, the indexed change was 1.5% above the 2001 level.

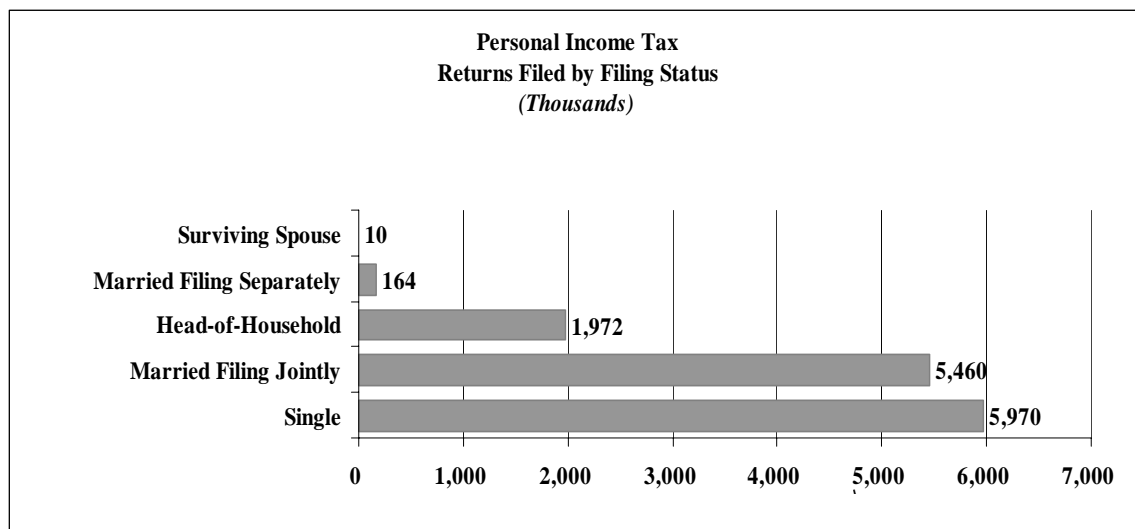

Profile of Personal Income Tax Returns Filed

Filing Method

In calendar year 2003, 13.6 million California full-year resident personal income tax returns for taxable year 2002 were filed with the Franchise Tax Board, a 0.2% return decrease from taxable year 2001. Of the 13.6 million returns received by FTB, 1.8 million returns were prepared on form FTB-540 2EZ, 3.0 million returns were prepared on form FTB-540A (short form), and 8.7 million were prepared on form FTB-540 (long form). During the 2003 filing year, 3.8 million tax returns were filed electronically, an increase of 15.0% from 2002. The amount of self-assessed taxes totaled \$28.6 billion, a decrease of 8.7% from the previous year's self-assessed amount of \$31.3 billion.

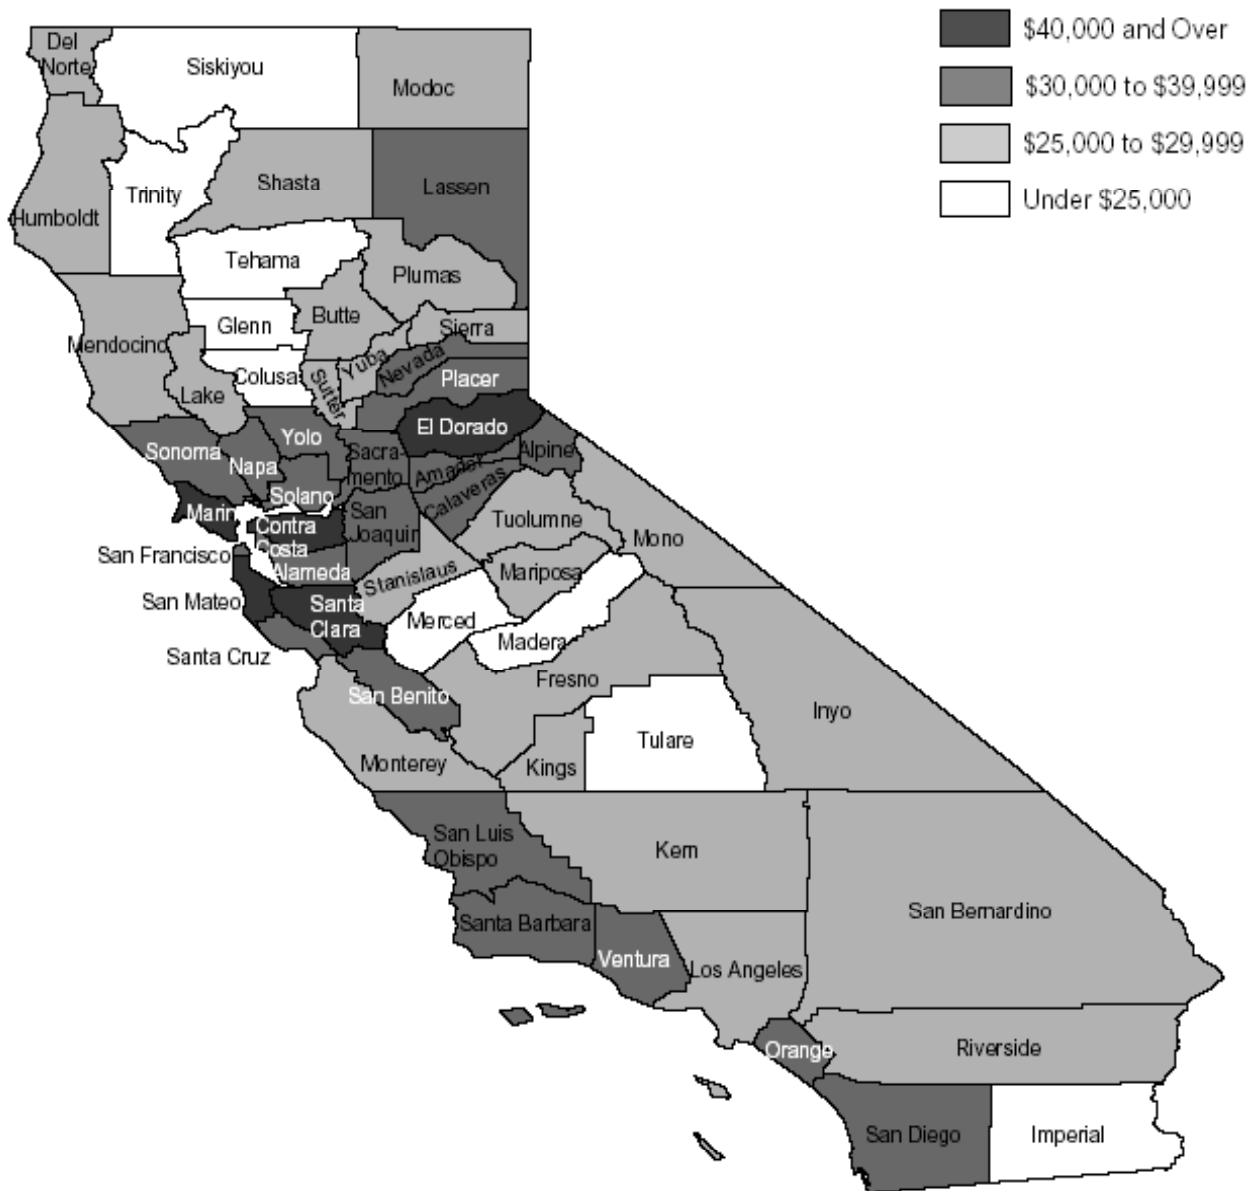

Filing Status

The 13.6 million personal income tax returns consisted of 6.0 million returns reporting Single filing status, 5.5 million returns with Married Filing Jointly status, 2.0 million Head-of-Household returns, 164,000 Married Filing Separately returns, and 10,000 Surviving Spouse returns. The following chart and Appendix Tables B-4B through B-4F provide detailed illustrations of tax return volumes by filing status.

**Personal Income Tax
MEDIAN ADJUSTED GROSS INCOME BY COUNTY
Taxable Year 2002**

**Personal Income Tax
MEDIAN ADJUSTED GROSS INCOME BY COUNTY
Taxable Year 2002**

Filing Status Type: Married Filing Jointly

Statewide Median AGI
Married Filing Jointly: \$57,996

Median Adjusted Gross Income by County

On July 1, 2002, the resident population of California's 58 counties totaled 35.3 million people, with the lowest population residing in Alpine County (1,240) and the largest population in Los Angeles County (9,889,300). California's full-time residents filed 13.6 million returns for the 2002 taxable year and reported \$731.3 billion of adjusted gross income (AGI). Alpine County households filed 309 tax returns reporting a total AGI of \$14.3 million, and Los Angeles County households filed 3,668,786 returns reporting \$185.4 billion.

All Tax Filers

The statewide median AGI for all California full-time resident filers increased by 0.2%, from \$31,666 in taxable year 2001 to \$31,734 in taxable year 2002. Marin County reported the highest median AGI at \$44,399; Imperial County reported the lowest at \$21,164. From among California's 58 counties, 47 counties reported increases in median AGI from the taxable year 2001. The largest median AGI gain was reported in Alpine County, with a \$2,167 (6.8%) increase from the prior year. From among the 11 counties that had reported median AGI decreases from the 2001 taxable year, Santa Clara County reported the greatest loss (-5.4%) from the 2001 taxable year.

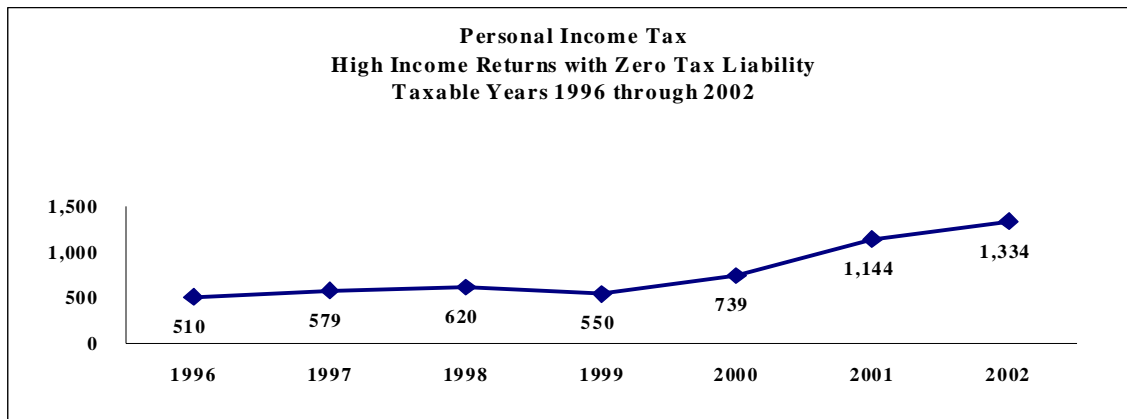

Married Filing Jointly Filers

Franchise Tax Board received 5.5 million California full-time resident, Married Filing Jointly (MFJ) returns for taxable year 2002. In comparison with the prior year's statistics, the number of MFJ returns increased by over 30,000 (0.6%). Simultaneously, the MFJ returns reported a median AGI decrease of 0.6%, from \$58,341 in taxable year 2001 to \$57,996 in taxable year 2002. Marin County reported the highest median AGI at \$92,481; Imperial County reported the lowest AGI at \$31,897. Only 36 of the 58 counties reported increases in median AGI. The largest median AGI gain of \$4,318 (8.4%) was reported on returns from Alpine County. From among the 22 counties that had reported median AGI decreases from 2001, Santa Clara County reported the greatest loss (-6.4%).

High Income Returns

Franchise Tax Board received 347,189 full-year resident, 2002 taxable returns with reported AGIs of \$200,000 or more. This volume represented 2.6% of the total returns filed, and 25.2% of the \$731.2 billion total California AGI. Among the high income returns, 1,334 or 0.4% had no net tax liability, as indicated on Appendix Table B-9.2. The following graph illustrates the volume of high income returns with no net tax liability since 1996.

The major contributors to the zero tax liability were Enterprise Zone Credits, the Manufacturer's Investment Credit, and the Prior Year Alternative Minimum Tax Credit. The following table lists the number of non-taxed high income returns filed for taxable year 2002, by frequency of the tax credit claims that resulted in the non-tax status:

Personal Income Tax HIGH INCOME RETURNS MAJOR CONTRIBUTORS TO ZERO TAX LIABILITY Taxable Year 2002			
Contributing Credits and Deductions	Number of Returns		Percent of Total
Enterprise Zone Hiring, Sales and Use Tax Credit	389		29.2
Manufacturer's Investment Credit	162		12.2
Miscellaneous Deductions	128		9.6
Prior Year Alternative Minimum Tax Credit	120		9.0
Los Angeles Revitalization Zone Credit (carryover)	84		6.3

Unknown Credit or Deduction	17		1.3
Total	1,334		100.0

* Three or fewer returns, not shown in frequency data but included in totals.

Profile of Personal Income Tax Computation

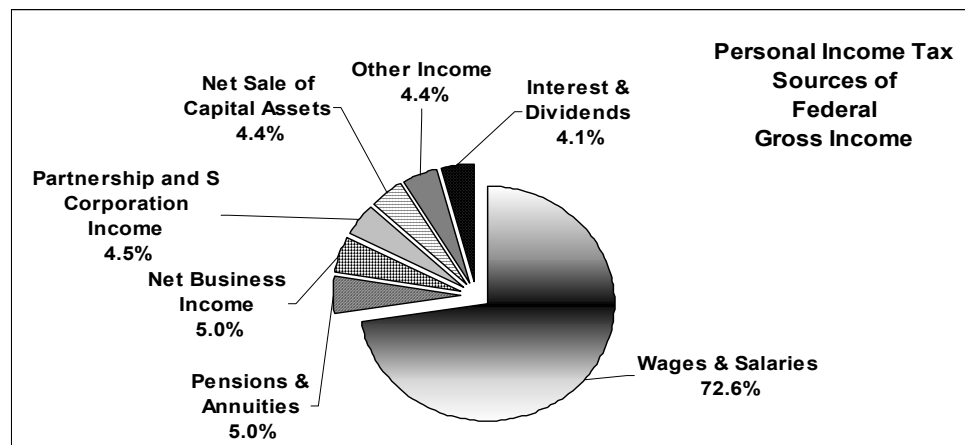

Adjusted Gross Income

California taxpayers are required to compute federal adjusted gross income (AGI) by completing their federal tax return before determining California AGI. To determine federal AGI, taxpayers must subtract federal adjustments from federal income. Once the taxpayer's federal AGI has been determined, California adjustments, both additions and subtractions, are made to federal AGI to determine the California AGI. The chart on the opposite page illustrates the process used to arrive at California AGI.

Federal Adjusted Gross Income

California full-year resident tax filers reported a total Federal Gross Income (before adjustment reductions) of \$751.1 billion for taxable year 2002. In descending order by amount, the major sources of income included Wages and Salaries, Taxable Pensions and Annuities and Net Business Income, Net Partnership & S Corporation Income, Net Sale of Capital Assets, Taxable Interest, and Taxable Dividends.

Federal Adjusted Gross Income is adjusted by reducing the amount of Gross Income by certain non-taxable income sources. For taxable year 2002, adjustments to federal Gross Income amounted to \$10.9 billion and included, in descending order by amount, Self-Employed Retirement Plans, One-half of Self-Employment Tax, Self-Employed Health Insurance, Alimony Paid, Individual Retirement Accounts, Student Loans, and Moving Expenses. California full-year resident tax filers reported a total Federal Adjusted Gross Income (after income adjustment reductions) of \$740.4 billion for taxable year 2002.

California Adjusted Gross Income

To adjust for differences between the federal and state tax codes, California full-year resident tax filers subtracted \$26.7 billion from, and added \$17.7 billion to, the \$740.4 billion federal AGI. Subtractions from the federal AGI reduce the California taxable income base from which California tax liability is determined. Common

income sources that are determined to be non-taxable for California tax purposes include State Income Tax Refunds, Unemployment Compensation, Social Security Benefits, California Nontaxable Interest Income, and others.

Additions to the federal AGI raise the California taxable income base by which California tax liability is determined. Common additions include California taxable income sources such as Net Operating Loss, Passive Activity Losses, Depreciation and Amortization related to Business and Rental Income, and others.

For 2002, total California Adjusted Gross Income reported by resident taxpayers was \$731.2 billion.

Comparison to Previous Year's AGI

The decline in income during taxable year 2002 is most apparent when comparing federal sources of taxpayer income between taxable years 2001 and 2002. Taxable Interest and taxable Dividend income declined by 23.9% and 17.1%, respectively, as did Net Sale of Capital Assets by 32.1% between 2001 and 2002. On the positive side, the amount of Net Farm Loss decreased in taxable year 2002, with a 16.6% improvement. Pension and Annuity income increased by 6.9%, Partnership and S Corporation income by 3.5%, and Net Business Income by 1.5%. The net result to Federal AGI was a decrease of only 3.6% from taxable year 2001.

Personal Income Tax CALIFORNIA ADJUSTED GROSS INCOME TWO-YEAR COMPARISON <i>(Millions)</i>

Personal Income Tax Components Taxable Year 2002

Income From All Sources

Minus Exempt Income: (Examples) Nontaxable Social Security and Railroad Retirement . Insurance Proceeds . Bequests and Gifts . Public Assistance . IRA and Keogh Interest . Interest on Certain State and Local Government Obligations . Scholarships and Fellowships

Equals Gross Income: Wages and Salaries . Taxable Interest . Dividends . Taxable State and Local Income Tax Refunds . Alimony Received . Business Income or Loss . Capital Gain or Loss . Taxable IRA Distributions . Taxable Pensions and Annuities . Rents and Royalties . Income from Partnerships and S Corporations . Distributions from Estates and Trusts . Net Farm Income . Unemployment Compensation . Taxable Social Security Benefits . Other Income . Lottery Winnings

Minus Adjustments to Income: Individual Retirement Plan Contributions . One-Half Self-Employment Tax . Self-Employed Health Insurance . Self-Employed Retirement Plan Deductions . Penalty on Early Withdrawal of Savings . Alimony Paid . Moving Expenses . Student Loans . Archer MSA Deductions . Foreign Earned Income Exclusions

Equals Federal Adjusted Gross Income

Minus Federal Income Exempt for State Tax: State Income Tax Refund . Unemployment Compensation . Taxable Social Security Benefits . Nontaxable Interest and Dividend Income . Railroad Retirement and Sick Pay . California Lottery Winnings . Fringe Benefits . IRA Distributions . Basis Recovery of IRAs, Pensions and Annuities . Differences in Passive Activities . Differences in Depreciation and Amortization . Differences in Capital Gains or Losses . Differences in Other Gains or Losses . Differences in Net Operating Losses . Reward from Crime Hotline . Income from Recycling Beverage Containers . Rebates from Water Agencies . Dividends from Controlled Foreign Corporations . Net Interest Income for Zone Businesses

Plus State Income Exempt from Federal Tax: Interest on State or Municipal Bonds for Other States . Fringe Benefits . Differences in Passive Activities . Differences in Depreciation and

Amortization . Differences in Capital Gain or Loss . Differences in Other Gain or Loss . Differences in Net Operating Loss . Income Exempted by U.S. Treaty . Foreign Earned Income Exclusion

Equals California Adjusted Gross Income

Minus Deductions: California Standard Deduction or Federal Itemized Deductions adjusted for differences in California . Medical and Dental Expenses . California Income Tax Paid . Interest Paid . Contributions . Casualty and Theft Loss . Employee Business Expense . SDI . Foreign Taxes . Adoption Related Expenses . Contribution of Stock to Private Foundations . Miscellaneous Deductions

Equals California Taxable Income

Calculate Tax Rate from Tax Rate Schedule

Minus Tax Credits: (Credits are allowable only after applicable limitations based on the *Tentative Minimum Tax*): Personal . Dependent . Blind . Senior . Senior Head of Household . Dependent Parent . Prison Inmate Labor . Enterprise Zone Wages . Joint Custody Head of Household . Low-Income Housing . Enterprise Zone Hiring and Sales Tax . Research . Taxes Paid to Other States . Employer Child Care Program and Contribution . Prior Year Alternative Minimum Tax . Child Adoption . Manufacturer's Investment . Local Area Military Base Recovery Area . Manufacturing Enhancement Area . Targeted Tax Area . Renters . Disabled Access . Enhanced Oil Recovery . Farmworker Housing . Joint Strike Fighter Property and Wage . Community Development Qualified Deposit . Rice Straw . Teacher Retention . Natural Heritage Preservation . Solar Systems . Miscellaneous Carryovers from Expired Credits

Plus Other Taxes: Alternative Minimum Tax . Tax on Early Use of IRA, Keogh or Annuity Contract . Tax on Accumulation Distributions of Trusts . Credit Recapture

Equals Total Tax Liability

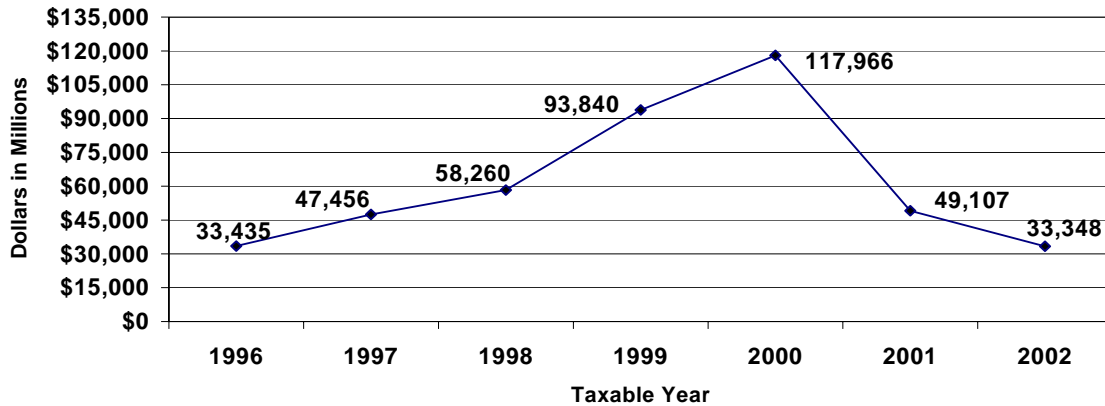

Minus Prepayments and Payments: Withholding . Estimated Tax . Extensions . Excess SDI

Plus Voluntary Contributions

Equals Overpayment or Balance Due

Capital Assets income continued to fall in the 2002 taxable year, declining by 32% back to the 1996 level. In 2000, Capital Assets income accounted for 13.9% of total income; by 2002, its proportion of total income had fallen to 4.4%.

Deductions and Taxable Income

Deductions

Deductions from Adjusted Gross Income determine California Taxable Income. Deductions are common expenditures that are exempt from federal and state taxes, including Medical Expenses, Real Estate and certain Other taxes, Mortgage Interest, Charitable Contributions, Non-reimbursed Employee Expenses, and others. Taxpayers have the option of either itemizing their actual tax-exempt expenditures on form IRS-1040, Schedule A *Itemized Deductions* or using the statutorily-determined standard deduction amounts. For taxable year 2002, the standard deduction amounts were \$3,004 for filers reporting Single or Married Filing Separately and \$6,008 for filers reporting Married Filing Jointly, Head-of-Household, or Surviving Spouse filing status. It is to the taxpayer's benefit to itemize tax-exempt expenditures when the total itemized deduction amount exceeds the standard deduction amount. Of the 13.6 million taxable year 2002 PIT returns filed, 5.6 million (41.3%) returns reported a total of \$116.1 billion of itemized deductions, and 8.0 million (58.7%) returns reported \$34.2 billion in standard deductions.

Comparison to Previous Year's Deductions

The total amount of California deductions on taxable year 2002 returns was \$150.3 billion, a \$6.3 billion (4.4%) increase from the prior year. The amount of itemized deductions claimed on the 2002 returns totaled \$116.1 billion after adjusting for federal/California differences, representing a \$6.4 billion (5.8%) increase from 2001. Significant changes from the prior year included increases in the amount of Medical Expense deductions by 33.0% and increases of Casualty and Theft deductions by 66%. Deductible taxes declined by 12%, fueled by an 18% decline in State and Local Income Tax which was partially offset by a 9% increase in Real Estate Tax.

Personal Income Tax CALIFORNIA ITEMIZED DEDUCTIONS TWO-YEAR COMPARISON <i>(Millions)</i>					
AGI Component	Taxable Year 2001	Percent of Total	Taxable Year 2002	Percent of Total	Percent Change

Total California Deductions	\$ 143,914		\$ 150,255		4.4

Tax Liability

Taxable income is the amount of income used to compute total tax liability, and total tax liability is the amount of tax the law entitles to the State from its taxpayers. The amount of tax is computed from California Net Tax minus Credits, plus Alternative Minimum Tax.

Taxable Income and Net Tax

Taxable Income is the amount of income used to compute California Net Tax before adjusting for Exemption Credits and Special Credits. Net Tax is obtained from either the California tax table, tax rate schedule, form FTB-3800, or FTB-3803. Net tax is determined according to Taxable Income and filing status. California Taxable Income after Deductions totaled \$601.7 billion for taxable year 2002. In comparison with \$621.5 billion in 2001, taxable income fell by \$19.8 billion, or 3.2%.

Tax Credits

To determine tax liability, net tax is reduced by tax credits. Tax credits fall into two categories -- exemption credits and special credits. Special credits include two refundable credits-- Renters Credit, and Child and Dependent Care Credit.

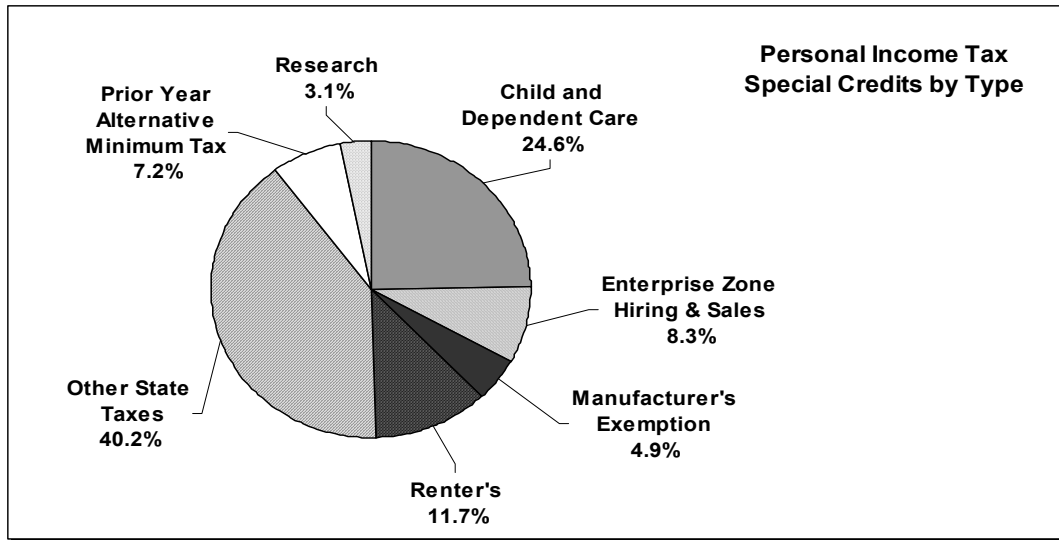

Exemption Credits

Each year, the size of exemption credits is indexed to compensate for inflationary factors. For taxable year 2002, the CCPI increased by 1.5% from the prior year, resulting in an \$80 exemption credit for each qualifying personal, blind, and senior exemption, and \$251 for each dependent exemption. For 2002, 18.3 million personal exemption credits, 18.8 thousand blind exemption credits and 2.2 million senior exemption credits were claimed, for a total of \$1.6 billion. Additionally, 10.3 million dependents were reported, claiming \$2.6 billion of dependent exemption credits.

Exemption Credits are subject to limitation when the Federal Adjusted Gross Income exceeds a certain amount. These amounts are also indexed annually. For taxable year 2002, Exemption Credits were limited when federal AGI of Single and Married Filing Separately filers exceeded \$132,793, the AGI of Married Filing Jointly and Surviving Spouse filers exceeded \$265,589, and when federal AGI of Head-of-Household filers exceeded \$199,192.

Special Credits

Special tax credits are employed to promote economic or societal goals or to provide relief to certain taxpayers. Appendix Table B-8 provides a list of special credits available to taxable year 2002 filers, along with the number of claimants and the dollar amounts claimed. Note on Table B-8 that, of the 52 credits listed, 21 credits had expired prior to 2002 and were reporting the results of their carryover provisions. Of the \$833.9 million claimed for special credits, the following pie chart proportionately illustrates the seven special credits with claims over \$20 million each:

Alternative Minimum Tax

California tax law gives special treatment to some types of income and allows special deductions and credits for some types of expenses. The Alternative Minimum Tax (AMT) is designed to ensure that individuals who take substantial advantage of these provisions pay at least a minimum level of tax. The California AMT rate for taxable year 2002 was 7.0%.

Alternative Minimum Taxable Income (AMTI) is the base by which the minimum tax is computed. The base for computing AMTI is the regular taxable income plus the recapture of Tax Preference Items, plus the recapture of certain regular tax deductions, less AMT exemptions.

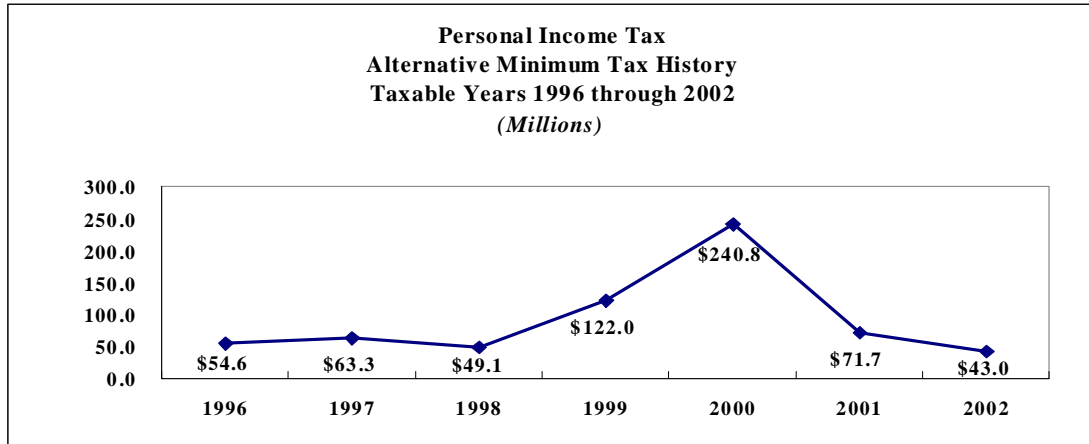

Exemption from Minimum Taxation

A specified amount of AMTI is exempt from alternative minimum taxation. These exemption amounts are indexed for inflation, and varies according to the taxpayer's filing status. The exemption amounts are also phased out for taxpayers with high AMTIs. For the 2002 taxable year, the Exemption amounts are provided on the Credits, plus Alternative Minimum Tax, plus Other Taxes and Credit Recaptures.

Personal Income Tax CALIFORNIA ALTERNATIVE MINIMUM TAX EXEMPTIONS			
Filing Status	Exempt Amount	Phase-out	
		Begins at:	Ends at:
Married Filing Jointly and Surviving Spouse	\$ 65,114	\$ 244,176	\$ 504,632
Single and Head of Household	\$ 48,836	\$ 188,132	\$ 383,476
Married Filing Separately and Estates & Trusts	\$ 32,556	\$ 122,087	\$ 252,311

Source: 2003 Guidebook to California Taxes

From among the 13.6 million returns filed for taxable year 2002, 9,825 returns reported alternative minimum tax assessments, totaling \$43.0 million. In comparison with taxable year 2001, 2002 experienced a 3,876 (28.3%) decrease in the number of AMT returns filed, and a \$28.6 million (40.0%) decrease in the dollar amount of AMT assessed. As the following graph illustrates, the rapid decline in volume and amount of AMT reported began in taxable year 2001 and continued into taxable year 2002. The strong growth in AMT between 1998 and 2000 was driven by growth in stock options, the value of which fell significantly in 2001 and continued in 2002.

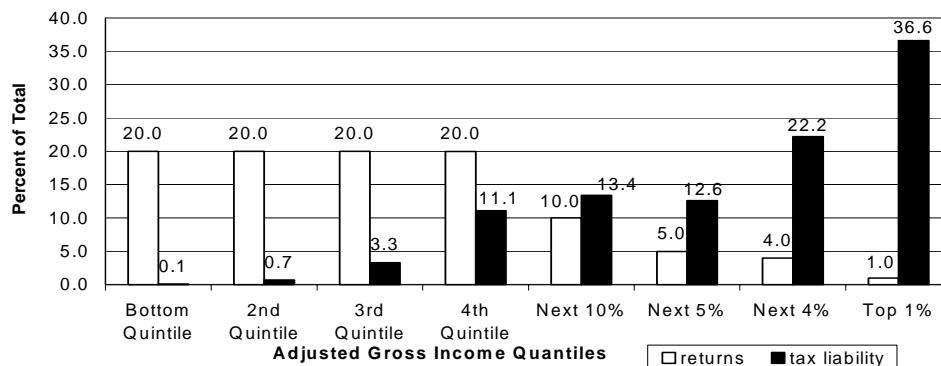

Total Tax Liability

Total tax liability to California was \$28.6 billion for taxable year 2002. In comparison with \$31.3 billion in 2001, taxable income fell by \$2.7 billion, or 8.7%.

Tax liability was unevenly spread among income groups in taxable year 2002. Based on the California AGI, the top one percent of returns accounted for 37% of all tax liability, compared to 39% for 2001, and 48% for 2000. The top five percent paid 59% of all tax.

Personal Income Tax TAX LIABILITY BY AGI QUANTILES

Profile of Personal Income Tax Payments

Tax Liability Pre-Payments

Pre-paid Taxes are payments made to the State prior to the tax return filing period. Pre-paid taxes include tax withholdings, quarterly self-assessed estimates, Excess State Disability Insurance (SDI) withholdings, and voluntary application of prior year refunds. They are deposited to the State General Fund throughout the taxable year, and provide the cash-flow by which State government operates.

Tax Withholdings

The largest source of tax withholdings are from wages and salaries. In limited cases, other tax withholding sources include interest earned from savings accounts, dividends earned from investments, and capital gains from sales of certain residential real estate, stocks, bonds, and other capital assets. For the 2002 taxable year, 10.9 million (80.1%) PIT returns reported tax withholdings of \$22.6 billion, or 79.3% of the total self-assessed tax liability.

Quarterly Estimated Payments

Tax filers whose sources of taxable income are not subject to mandatory withholding, (i.e., sole proprietors, contractors, and other recipients of taxable, non-wage income), and taxpayers who elected not to withhold from voluntary withholding sources, may be required to submit quarterly estimate tax payments. For taxable year 2002, estimated tax payments totaling \$9.7 billion were reported on 1.2 million returns.

Excess State Disability Insurance Withholdings

For taxable year 2002, the Personal Income Tax Law, Section 132 stated in reference to State Disability Insurance Withholding, *“Employees who work for more than one employer during the taxable year are entitled to recover any amounts withheld from 2002 wages in excess of the tax on the maximum wage limit, plus interest.”* The indexed maximum wage tax limit was \$416.94. For taxable year 2002, 403,655 returns reported claims of \$57.7 million of Excess State Disability Insurance payments.

Prior Year Overpayments

Taxpayers who are due a refund of overpaid taxes can elect to apply all, or a portion of, the refund to the next year's tax liability. Additionally, taxpayers required to pay a balance due for the current taxable year may elect to pay more than the balance due and have the excess applied to the next year's tax liability. During the 2002 filing season, 535,474 taxpayers elected to apply \$1.4 billion of 2001 taxable year overpayments to their 2002 tax liability. Additionally, 496,170 taxpayers elected to apply \$1.4 billion of their 2002 taxable year overpayments to their 2003 tax liability.

Comparison of Tax Liability Pre-Payments

The following table displays a comparison of tax liability pre-payments between taxable years 2001 and 2002, respectively:

Personal Income Tax TAX LIABILITY PRE-PAYMENTS TWO-YEAR COMPARISON				
Tax Pre-Payment Source	Amount (Thousands)		Change	Percent Change
	2001	2002		
Tax Withholdings	\$ 23,589,362	\$ 22,644,478	\$ -944,884	-4.0
Estimated Payments	11,411,537	9,704,102	-1,707,435	-15.0
Excess State Disability Insurance Withholding	61,155	57,671	-3,484	-5.7
Credit from Last Year's Tax Overpayment	1,407,148	1,382,548	-24,600	-1.7
Total	\$ 36,469,202	\$ 33,788,799	\$ -2,680,403	-7.3

Voluntary Contributions

Taxpayers may make contributions of \$1 or more, in whole dollar amounts, to one or more charitable organizations listed on form FTB-540 (long form) or FTB-540A (short form). The charitable contribution either reduces the amount of refundable tax overpayment or increases the tax amount due. The option to contribute to the charitable organization is exercised after electing whether to apply the overpayment or additional payment to the next year's estimated tax.

For taxable year 2002, taxpayers were provided with a selection of 11 charitable funds to which to contribute while preparing their California tax returns. As the table on the following page illustrates, most charitable fund choices continued to be available from the prior year and the number and amounts of contributions to those funds remained relatively constant. The new fund for taxable year 2002, the California Lung and Asthma Research Fund, was added to the selection list after a one-year discontinuance in taxable year 2001.

Refunds and Balances Due

For taxable year 2002, 8.8 million taxpayers, or 65.1% of all taxpayers, received \$5.8 billion in tax refunds after adjusting for voluntary pre-payments to next year's tax liability and voluntary contributions to charitable organization funds. In comparison with taxable year 2001 statistics of 9.1 million taxpayers receiving \$6.1 billion in tax refunds, the 2002 statistics represented a decrease of 3.3% and 4.9%, respectively.

During the 2003 filing season, 2.7 million taxpayers who had not pre-paid sufficient taxes during the 2002 taxable year -- from withholdings or quarterly estimate payments -- paid tax balances totaling \$ 3.2 billion. Compared to taxable year 2001, the number of taxpayers owing tax balances increased by 82,618, or 3.2%, while the amount of tax due decreased by \$370 million, or 10.5%.

Business Entities

Introduction

Business Entity Forms

California tax law recognizes six major forms of business. They are:

- ❑ Corporations, including S Corporations and C Corporations
- ❑ Sole Proprietorships
- ❑ Partnerships, including General Partnerships, Limited Partnerships, and Limited Liability Partnerships
- ❑ Limited Liability Companies
- ❑ Estates and Trusts
- ❑ Exempt Organizations, including both incorporated and non-incorporated organizations

The three major factors that differentiate the forms of business entity -- organizational structure, tax reporting requirements, and liability responsibilities for business debts and liabilities -- are discussed below. Note that the effect of personal liability is the result of risking both business assets and non-business individual and community property assets.

Corporations

Corporations are 'legal persons' formed by associates to conduct business and, except for non-profit corporations discussed below, are organized for the purpose of generating profits for its investors. Corporations file Articles of Incorporation with a state, prepare by-laws, have their business affairs overseen by a board of directors, issue shares of stock, file tax returns, and pay a minimum annual tax of \$800 for the right to conduct business within California. Individual owners (stockholders) are not personally liable for the debts and financial obligations of the corporations.

C Corporations

C Corporations, so named in reference to Sub-Chapter C of the Internal Revenue Code, may have one or many shareholders as their numbers are unrestricted by law. C Corporations file corporate tax forms IRS-1120 and FTB-100 and pay taxes on profits at the corporate franchise tax rate for C Corporations. After-tax profits distributed to shareholders are also reported on the individual shareholder's Personal Income Tax form IRS-1040 as Dividend Income, or on the corporate shareholder's corporate tax return.

S Corporations

S Corporations are corporations of 75 or fewer shareholders, and are so named in reference to Sub-Chapter S of the Internal Revenue Code. They begin their existence as C Corporations and elect S Corporation status by submitting form IRS-2553. S Corporations file corporate tax forms IRS-1120S and FTB-100S and pay taxes on profits at the corporate franchise tax rate for S Corporations. In addition, profits are passed through to the individual shareholders who report the income on their individual returns.

A detailed analysis of corporation data for taxable year 2002 is discussed within this section under the heading *Profile of Business Entity Activities: California Corporations*. Additionally, all tables within Appendix C are devoted to corporations.

Sole Proprietorships

A Sole Proprietorship is a non-incorporated business owned by an individual (the sole proprietor) and which exists for as long as the owner is willing or able to stay in business. Sole proprietors have total management control over their businesses, and are personally liable for the acts of the owner's agents and employees. Sole proprietors report their business income and expenses on their Personal Income Tax form IRS-1040, Schedule C *Profit or Loss from Business*, with adjustments made on form FTB-540, Schedule CA.

An analysis of Sole Proprietorship data for taxable year 2002 is discussed under the heading *Profile of Business Entity Activities: Sole Proprietorships*.

Partnerships

A partnership is a non-incorporated business, owned by two or more people engaged in business for profit. Partnerships are divided into three categories: General Partnership, Limited Partnership, and Limited Liability Partnership.

General Partnerships

General Partnerships (GPs) are generally managed by all partners, and profits and losses are generally shared equally unless defined otherwise in a written partnership agreement. Each general partner is personally liable for the entire partnership debts and taxes. In addition, other unincorporated business entities can be classified as partnerships for tax purposes under specific provisions of federal and California law.

Limited Partnerships

Limited Partnerships (LPs) comprise 'general' partners who manage the business and are personally liable for the partnerships, and 'limited' partners who only contribute capital, share in the profits, but take no part in running the business. They are not personally liable for partnership obligations beyond their capital contributions. LPs are required to be certified with the Secretary of State, are restricted by many corporation-like requirements, and are subject to an annual tax of \$800 for California certification, whether or not they are conducting business in California.

Limited Liability Partnerships

Limited Liability Partnerships (LLPs) comprise general partners whose professions are limited to certain state licenses, including public accountancy, law, architecture, and related licensed services. Partners of LLPs are neither personally liable for the debts of any other partner, nor are the individual partners liable for the acts or omissions of any other partners, solely by reason of being a partner. Like Limited Partnerships, LLPs are required to be certified with the Secretary of State, are

restricted by many corporation-like requirements, and are subject to an \$800 annual tax.

All partnerships that engage in a trade or business or generate income from California sources must report their business activities to California on form FTB-565 *Partnership Return of Income*. Partnerships are also required to provide to each partner, form FTB-565 Schedule K-1 *Partner's Share of Income, Deductions, Credits, Etc.* Schedule K-1s are used by individual partners to prepare their personal income tax returns. Corporate partners use Schedule K-1 to report other income on their corporate tax return, FTB-100 or FTB-100S, as appropriate.

An analysis of Partnership data for taxable year 2002 is discussed under the heading *Profile of Business Entity Activities: Partnerships*.

Limited Liability Companies

Limited Liability Companies (LLCs) are entities formed under state law by filing Articles of Organization as an LLC. As with Limited Liability Partnerships, members of an LLC are not personally liable for the debts of the LLC or any other partner. Additionally, members of LLCs are not restricted to certain professions. However, certain professions are not permitted to conduct the profession as an LLC.

For tax reporting purposes, LLCs may elect treatment as a corporation, reporting California business activities on form FTB-100, or may elect treatment as a partnership reporting business activities on form FTB-568, or may elect to be 'disregarded'. A disregarded entity owned by an individual is treated as a sole proprietorship, reporting business activities on form IRS-1040 Schedule C. A disregarded entity owned by a corporation is treated as a division of that corporation. LLCs that are not classified as corporations are subject to an \$800 annual tax plus a fee based on Total Annual Income defined as Gross Income plus Cost-of-Goods Sold. The fee schedule for taxable year 2002 is as follows:

Limited Liability Company ANNUAL INCOME FEE SCHEDULE Taxable Year 2002		
From	To	Fee
\$ 0	\$ 249,999	\$ 0
250,000	499,999	900
500,000	999,999	2,500
1,000,000	4,999,999	6,000
5,000,000	and over	11,790

Throughout this section, reference to Limited Liability Company data refers to LLCs that reported business activities on form FTB-568. The LLC data are presented under the heading, *Other California Business Entities: Limited Liability Companies*.

Estates and Trusts

A trust is a separate legal and taxable entity consisting of property which is held and administered by a fiduciary trustee for the benefit of another. An estate, for purposes of tax law, is the collective real and personal property that a person possesses at the time of death and that is transferred to the heirs subject to payment of debts and claims. An estate is a temporary entity administered by a fiduciary executor and dissolved by the court upon completion of the probate process. California Personal Income Tax Law governs the tax treatment of estates and trusts. The same tax rates applicable to individuals are applicable to estates and trusts. California estates and trusts report taxable business activities on form FTB-541 *California Fiduciary Income Tax Return*.

An analysis of Estates and Trusts for taxable year 2002 is presented under the heading *Other Business Entities: Estates and Trusts*.

Tax-Exempt Organizations

Tax-exempt organizations are entities that operate for non-profit, charitable, or mutual benefit purposes and have been granted tax-exempt status by the Internal Revenue Service and the Franchise Tax Board. Tax-exempt organizations include both unincorporated and incorporated entities. Members and directors of unincorporated organizations are personally liable for organizational debts; members, trustees, and officers of tax-exempt corporations are personally liable only to a limited degree.

Generally, tax-exempt organizations receiving gross receipts of \$25,000 or more are required to file FTB-199 *Exempt Organization Annual Information Return*. Organizations that conduct business activities not related to its exempt purpose are also required to file either FTB-109 *California Exempt Organization Business Income Tax Return*, FTB-100 *California Corporation Franchise or Income Tax Return*, or FTB-565 *Partnership Return of Income* depending on the type of entity and the dollar amount of gross receipts.

An analysis of Exempt Organizations for taxable year 2002 is presented under the heading *Other Business Entities: Exempt Organizations*.

Interpreting the Statistical Data

Data Sources

Business entity data contained within this section of the *2003 Annual Report* is derived from four sources: Personal Income Tax Return Transactions File, Personal Income Tax Sample, Business Entities Tax System, and the Corporation Sample.

Business Entities Tax System

The Business Entities Tax System (BETS) provided the taxable year 2002 statistical data from 184,651 partnership returns, entitled FTB-565 *Partnership Return of Income*; from 113,619 LLC returns entitled FTB-568 *Limited Liability Company Return of Income*; and from 84,065 tax-exempt organization returns. Additionally, this system provided corporation data regarding tax credits claimed, as illustrated in Appendix Tables C-7, C-7A and C-7B.

Corporation Sample

The data pertaining to C Corporations and S Corporations, as described in the text and on the Appendix C tables (except Tables C-7, C-7A and C-7B, discussed above) were derived from a stratified sample of 14,635 corporation returns selected from a combined total of 551,000 form FTB-100 *California Corporation Franchise or Income Tax Return*, and form FTB-100S *California S Corporation Franchise or Income Tax Return* returns.

Personal Income Tax Return Transactions File

The Personal Income Tax Return Transactions File contains the data pertaining to Estates and Trusts. Pertinent data were extracted from the 294,050 Estates and Trusts for taxable year 2002. These entities use FTB-541 *California Fiduciary Income Tax Return*.

Personal Income Tax Sample

The Personal Income Tax Sample comprised 92,499 returns selected from the 14.2 million returns filed in calendar year 2003, from which Sole Proprietorship data were extracted for display in Appendix Tables B-4A.2 *Elements of Tax Liability Computations: Business Income*, in Appendix Table B-5 *Elements of Tax Liability Computations: Part-Year Resident and Non-Resident Returns*, and for discussion within this section of the report.

Worldwide Versus California Net Income

Forms FTB-565 *Partnership Return of Income* and FTB-568 *Limited Liability Company Return of Income* provide FTB with information about the business entity's income from sources both within and outside of California. The Partnership and Limited Liability Company forms do not separately report California's portion of the worldwide income. Instead, the California portion is reported on the individual partner's or member's tax return. Consequently, references within this *FTB Annual Report 2003* to 'taxable income' and 'profits and losses' from partnerships and LLCs apply to worldwide income.

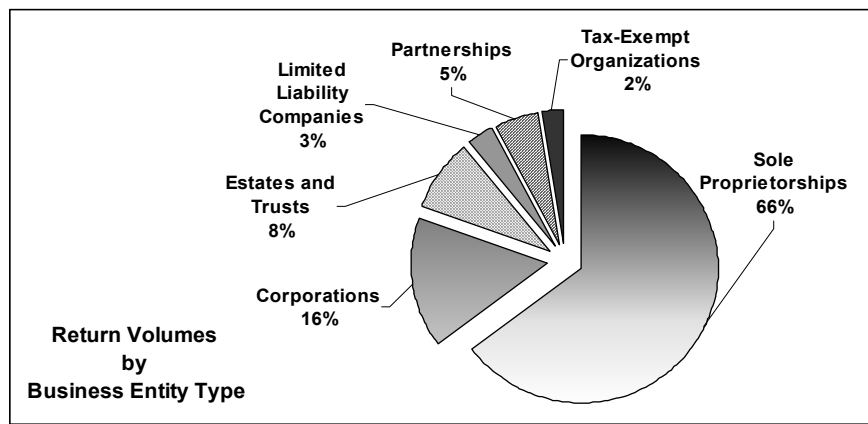

Forms FTB-100 *California Corporation Franchise or Income Tax Return*, and FTB-100S *California S Corporation Franchise or Income Tax Return* provide FTB with information about the corporation's income from both worldwide sources and California's portion of income. Within this Report, 'worldwide' income is referred to as 'pre-apportioned' income, and California's portion of income is referred to as 'post-apportioned' income, or 'State Net Income'. Corporate statistical data relating to profits and losses are presented in 'post-apportioned' form.

Sole Proprietorship data were derived from Personal Income Tax form FTB-540 *California Resident Income Tax Return*. As residents of California, all sole proprietorship income is California income to the taxpayer, and all profits and losses are attributable to California.

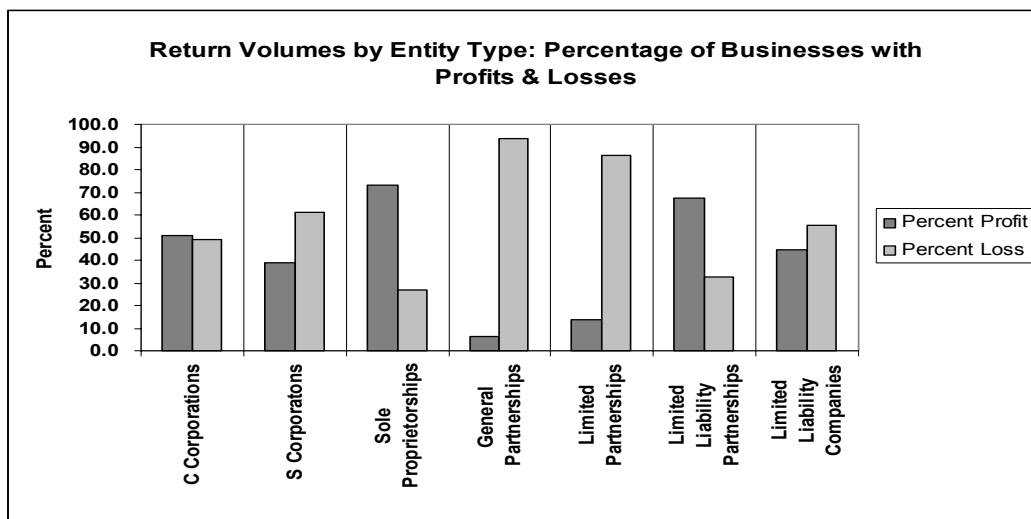

Profile of Business Entity Activities

Tax Return Volumes

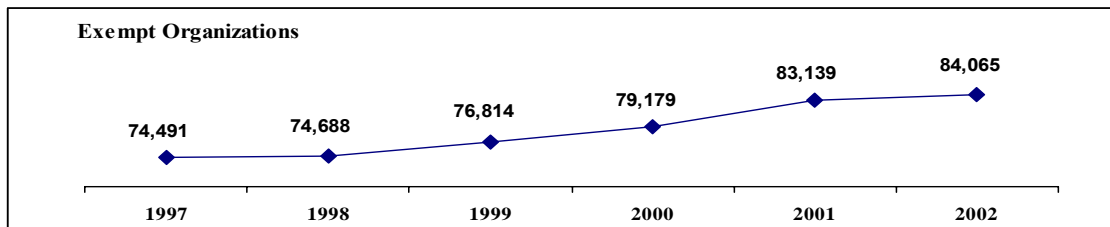

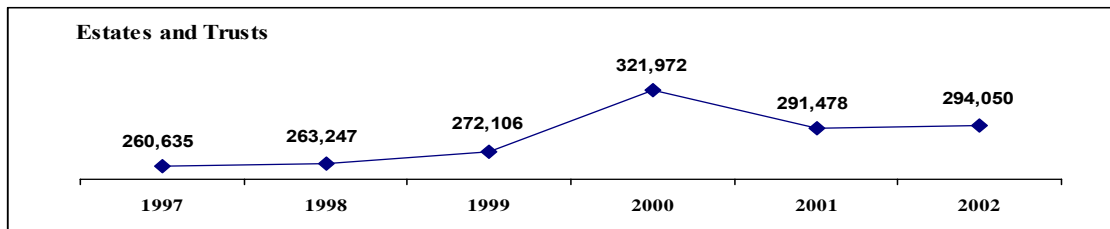

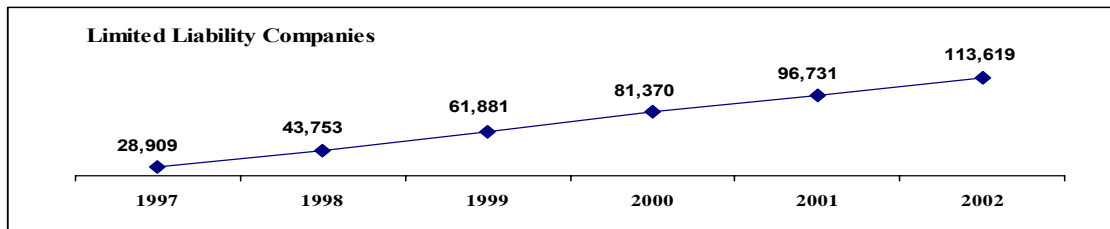

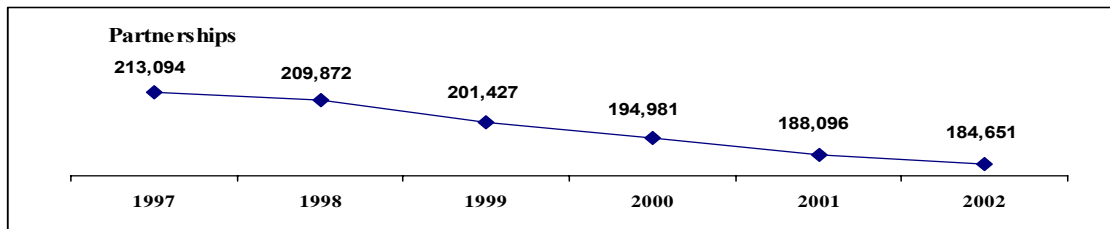

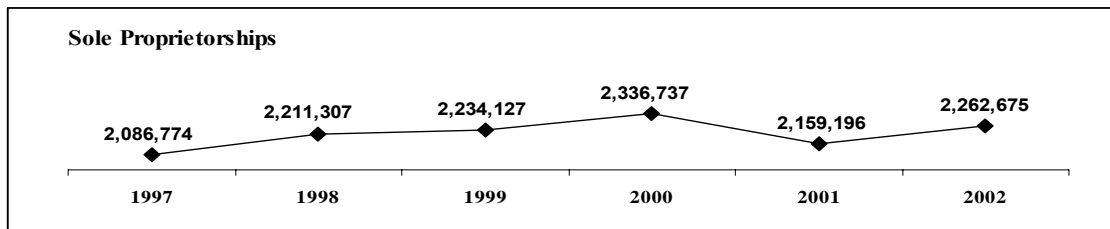

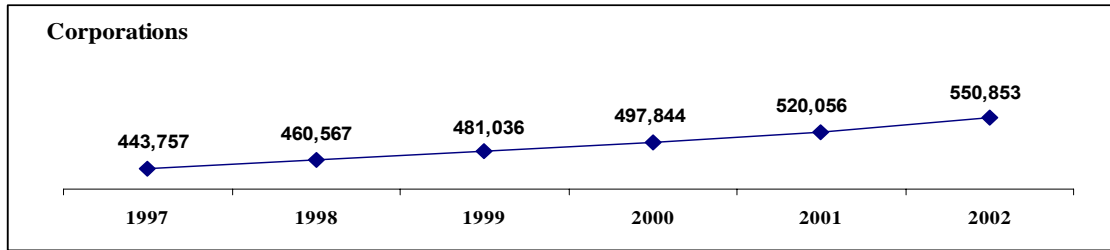

Franchise Tax Board received 3,489,913 California tax returns from business entities that closed its accounting year during 2002. As the following pie chart illustrates, sole proprietorships were the most common type of business entity, with 2,262,675 returns reporting business activities on form IRS-1040 Schedule C. Incorporated entities were the next most common type of business entity with 550,854 returns, of which 324,530 returns were from C Corporations reporting business activities on Form FTB-100, and 226,324 returns were from S Corporations reporting activities on Form FTB-100S.

The following bar chart presents each business entity's returns by those reporting profits and those reporting losses. As the chart illustrates, many more sole proprietorships reported profits than losses, as did limited liability partnerships. In contrast, general partnerships and limited partnerships reported significantly more losses than profits.

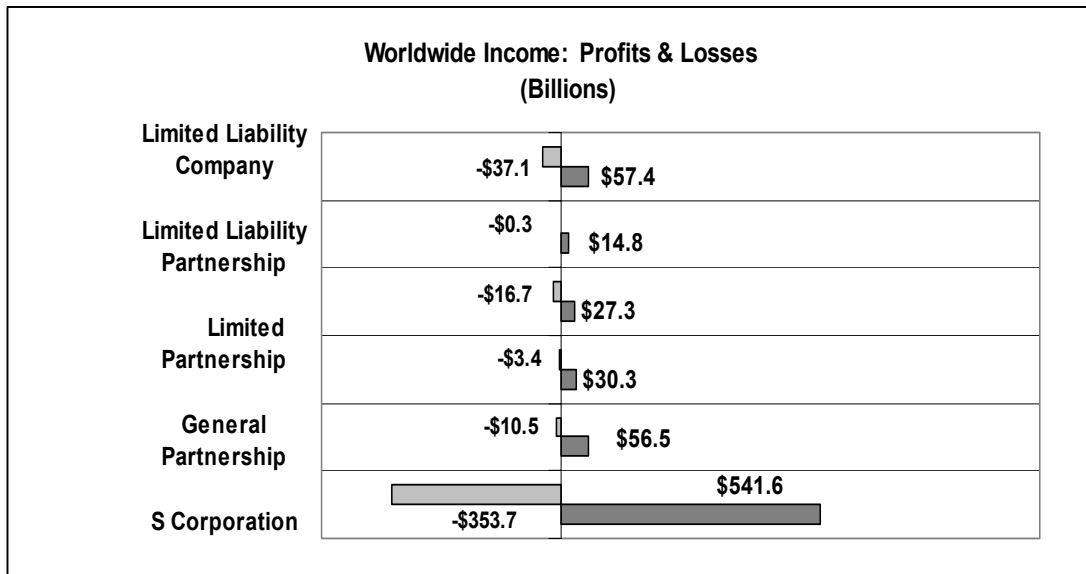

Return Volumes By Business Entity Type 1997 through 2002

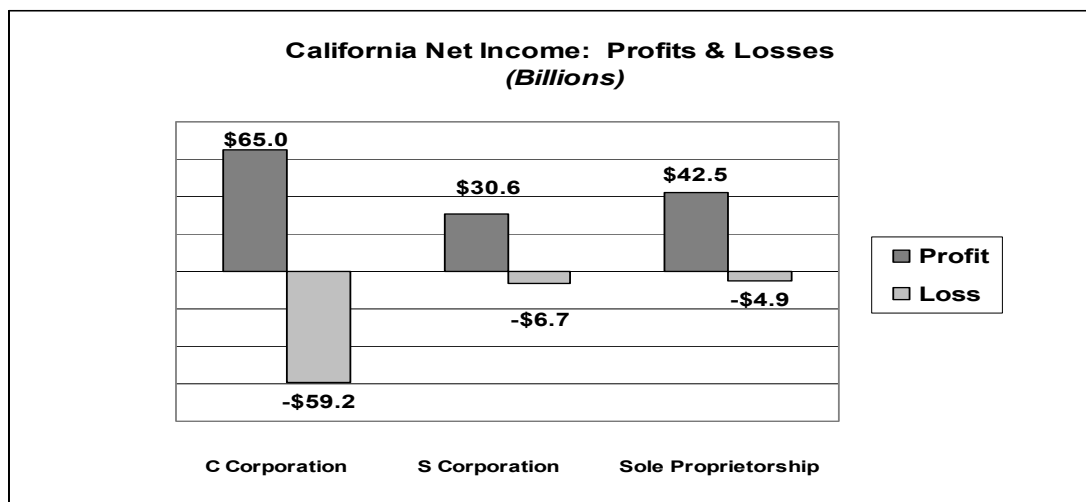

Business Profits and Losses

Corporations and Partnerships are required to report income from worldwide sources. The term 'worldwide' may refer to California income if all income is received from within California, or may refer to the United States if all income is received from within the national boundaries. The following chart shows profits and losses from worldwide income sources.

Corporations are also required to report income apportioned to California, as the following chart illustrates. Sole Proprietors, who report their business income to the Franchise Tax Board on their individual Personal Income Tax form FTB-540, are California residents and are thus required to treat all income as California income. The following chart shows business profits and losses from California income sources.

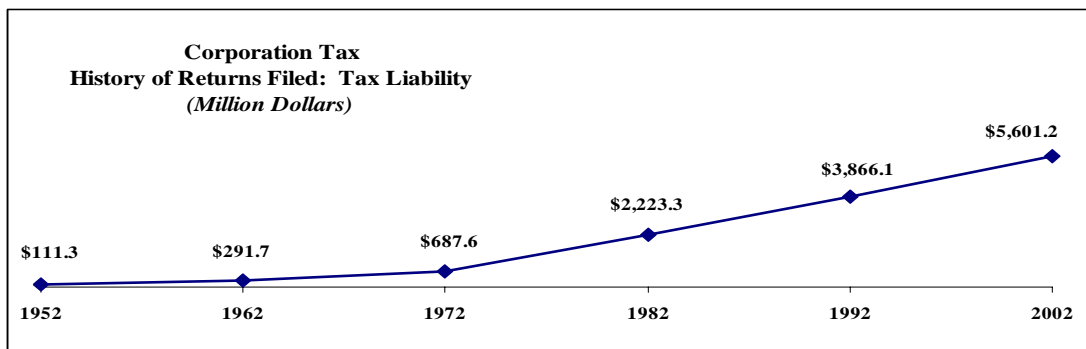

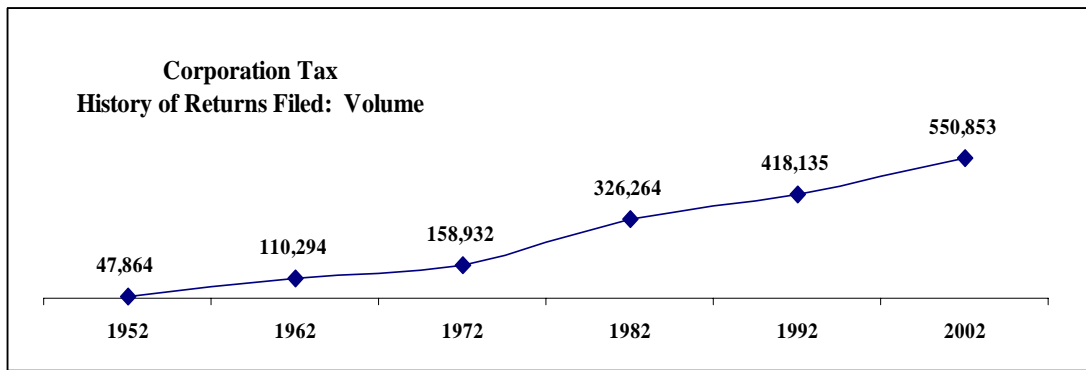

California Corporations

History

The Bank and Corporation Franchise Tax Act of 1929 established a California constitutional amendment, previously approved by the people of California, that permitted a tax to be imposed on banks and general corporations based on their net incomes. The *franchise tax* was imposed for the privilege of conducting business within the state, and applied to California incorporated, and out-of-state (or out-of-country) incorporated banks and corporations who *franchised* within the State.

In 1937, California enacted the Corporation Income Tax Act to tax those corporations which did not franchise under the original definition of the 1929 Act, but which indirectly derived profits from interstate commercial activities with California. An example of such non-franchise activity is manufacturing within California for sales elsewhere. This *income tax* was set at the same rate as the franchise tax.

In income year 1940, the California Bank and Corporation Franchise and Income Tax Acts resulted in the receipt of 26,968 corporation returns and \$21.8 million of state tax. By 1952, the number of returns had increased to 47,864 with a tax liability of \$111.3 million. The following charts illustrate the continual growth of return volumes and tax dollars to the state's General Fund.

Corporation Tax Components Taxable Year 2002

Gross Profits: Receipts from All Sources *minus* Cost of Goods Sold (Cost of Goods Sold is: Inventory at Start of Year *plus* Purchases *plus* Cost of Labor *plus* Additional Section 263A Costs *plus* Other Costs *less* Inventory at End of Year)

Less Business Expenses: Dividends . Interest on Obligations . Other Interest . Gross Rents . Gross Royalties . Capital Gains (Losses) . Ordinary Gains (Losses) . Net Gains (Losses) . Other Income . Net Income from Rental Real Estate . Net Income from Other Rental Activity . Other Portfolio Activity . Miscellaneous Income

Equals Total Income

Minus Deductions: (Examples) Compensation of officers . Salaries and Wages . Repairs and Maintenance . Bad Debts . Rents . Taxes and Licenses . Interest . Charitable Contributions . Depreciation and Amortization . Depletion . Advertising . Pension and Profit-Sharing Plans . Employee Benefit Programs . Other Deductions (Examples: Insurance premiums, legal and professional fees, Consumable supplies, utilities, certain travel, meal and entertainment costs, membership dues) . Recovery Property . Portfolio Income . Interest on Investment Debts . Miscellaneous Deductions

Equals Federal Taxable Income

Plus California Adjustments: Deductions for Foreign or Domestic Tax Based on Income or Profits . Deductions for tax under provisions of the Corporation Tax Law . Interest on Government Obligations . Net California Capital Gain . Depreciation and Amortization in Excess of Amount Allowed in California . Net Income from Corporations not Included in Federal Consolidated Return

Minus California Adjustments: Inter-company Dividend Deduction . Other Dividend Deduction . Additional Depreciation Allowed under CA Law . Capital Gain . Contributions . EZ, LAMBRA or TTA Business Expense . EZ Net Interest Deduction

Equals Total Net Income or Loss

(For Multi-State or Multi-National Corporations only. Non-Appportioning Corporations skip to 'Minus Disaster loss Carryover Deduction')

Apportion California's Share From Unitary Income:

Add Value of All Property within and outside California (Examples) Inventory . Buildings . Machinery and Equipment . Furniture and Fixtures . Land . Other Tangible assets . Rented Property used in the business

Add Value of All Property within California only (Examples) Inventory . Buildings . Machinery and Equipment . Furniture and Fixtures . Land . Other Tangible assets . Rented Property used in the business

Calculate Percent of Unitary Property Apportioned to California (Divide Total California Property by Total Unitary Property)

Add Cost of Payroll Within and Outside California (Examples) Wages . Salaries . Commissions . Other Compensation related to business income

Add Cost of Payroll Within California only (Examples) Wages . Salaries . Commissions . Other Compensation related to business income

Calculate Percent of Unitary Payroll Apportioned to California (Divide Total California Payroll by Total Unitary Payroll)

Add Sales Income Attributable to California only Sales delivered or shipped to California purchasers from outside California . Sales delivered or shipped to California purchasers from within California . Sales shipped from California to the U.S. Government . Sales shipped from California to purchasers in states where the taxpayer is not taxable . Other Gross Receipts (Examples include rents, royalties, interest, etc.)

Calculate Double the Percent of Unitary Sales Apportioned to California Divide Total California Sales by Total Unitary Sales. (Corporations required to 'double-weight' Sales: Multiply by '2')

Calculate Average Percent of Unitary Business Income (Loss) Attributable to California Add percentages Property, Payroll, and Sales . Corporation that single-weight Sales: Divide by '3'. Corporations that double-weight Sales: Divide by '4'

Plus Non-Business Income (Loss) Attributable to California: Dividends and interest income if commercial domicile is in California . Net Income (loss) from sale of assets within California . Gain (loss) from sale of non-business interest in a partnership or LLC . Miscellaneous non-business income (loss); and minus Disaster Loss Carryover Deductions

Equals California Taxable Income

Calculate Tax: California Taxable Income *times* Tax Rate *minus* Tax Credits *plus* Alternative Minimum Tax

Equals Total Tax Liability

Corporation Returns Filed

Franchise Tax Board received 550,853 Corporation Tax Returns for taxable year ending 2002, of which 324,530 (58.9%) were received from C Corporations, and 226,323 (41.1%) from S Corporations.

Non-Appportioning Corporations

Non-apportioning corporations are those C and S Corporations that either conduct all business activities within California or derive 100% of their taxable income from within the state. Non-apportioning corporations are also referred to as 'domestic' or 'intra-state' corporations.

Of the 550,853 corporate tax returns filed with California for taxable year 2002, an overwhelming 91.2% (502,368) were received from non-apportioning corporations, of which 58.0% (291,125) were from C Corporations and 42.0% (211,244) from S Corporations.

Apportioning Corporations

Apportioning Corporations are those C and S Corporations that conduct business both within and outside of California, whereby a portion of their reportable income is taxable to California. Apportioning corporations are also referred to as 'multi-state' or 'multi-national' corporations as appropriate.

Of the 550,853 corporate tax returns filed with California for 2002, only 8.8% (48,485) were received by apportioning corporations, of which 68.9% (33,405) were from C Corporations and 31.1% (15,080) were from S Corporations.

Computing Corporate Tax

Net Taxable Income After California Adjustments

Corporate taxpayers are required to compute federal net income by completing form IRS-1120 *U.S. Corporation Income Tax Return* before determining California net income. To determine federal net income, corporate taxpayers must subtract federal deductions from federal income. Once the federal income has been determined, California adjustments, both additions and subtractions, are made to determine the California net income.

Corporations that have no federal filing requirement or that maintain separate records that account for the federal/state tax law differences, may substitute the completion of form IRS-1120 with form FTB-100, Schedule F *Computation of Net Income*.

The chart on page 40 entitled *Corporation Tax Components*, illustrates the process used to arrive at California Taxable Income.

Apportioning Net Income to California

The term 'Unitary' refers to corporations whose business operations within and outside of California are highly interdependent. 'Unitary Method' refers to the calculation by which multi-state and multi-national corporations apportion California's share of their total business (versus non-business) income. Business income is income arising from transactions and activities in the regular course of the corporation's trade or business.

The unitary apportionment formula establishes a percent of the total business income by calculating the average California/Worldwide ratio for each of the three business activity factors: property values, payroll costs, and income from sales, as illustrated on the Corporation Tax Components chart. The California portion of business income plus the California portion of non-business income, is the Net California Taxable Income, from which the corporate tax liability is determined.

For taxable year 2002, the California State Net Income from corporations totaled \$29.7 billion of which \$18.6 billion (62.6%) was apportioned to California by multi-state and multi-national corporations, and \$11.1 billion (37.4%) was attributable to non-apportioning corporations.

Apportioning corporations reported a total worldwide net income (after California tax law adjustments) of \$233.9 billion, comprising \$598.1 billion of profits and \$364.2 billion of losses. Of the \$233.9 billion total net income reported, 7.9% or \$18.6 billion was attributable to California and divided between C and S Corporations by \$12.6 billion (67.9%) and \$6.0 billion (32.1%), respectively.

For a statistical comparison of federal and state net incomes between taxable years ending 2001 and 2002, refer to Appendix Tables C-2 (for all corporations), C-2A (for C Corporations only), and C-2B (for S Corporations only).

Minimum Taxes

Corporate entities subject to the corporation minimum franchise tax include all corporations (and LLCs classified as corporations) that are:

- ☐ Incorporated or organized in California;
- ☐ Qualified or registered to do business in California; or
- ☐ Doing business in California, whether or not incorporated, organized, qualified, or registered under California law.

The term 'doing business' means actively engaging in any transaction for the purpose of financial gain or profit.

Corporate entities not subject to the corporation minimum franchise tax are those subject to corporate income tax. The corporation income tax is imposed on all

corporations that derive income from sources within California but are not ‘doing business’ in California.

All corporations subject to the franchise tax (including banks, financial corporations, corporate general partners of partnerships, and corporate members of LLCs classified as partnerships) must file form FTB-100 and pay at least the minimum franchise tax whether the corporation is active, inactive, operates at a loss, or files a return for a short period of less than 12 months. The minimum annual tax is as follows:

- ❑ Domestic qualified inactive gold or quicksilver mining corporations \$ 25.
- ❑ All other corporations subject to franchise (versus income) tax \$800.

An exception applies for the first taxable year that the entity incorporates or otherwise becomes qualified to do business in California. Instead, for the first taxable year, the corporation computes its tax liability by multiplying its California taxable income by the appropriate tax rate, without a pre-determined minimum tax liability.

Franchise and Income Taxes

Corporate taxpayers calculate their *gross* (before adjusting for credits) tax by multiplying their California Taxable Income by the appropriate tax rate, as indicated by the taxable year 2002 rate schedule below. These rates apply to both corporations subject to either the corporation franchise tax or the corporation income tax.

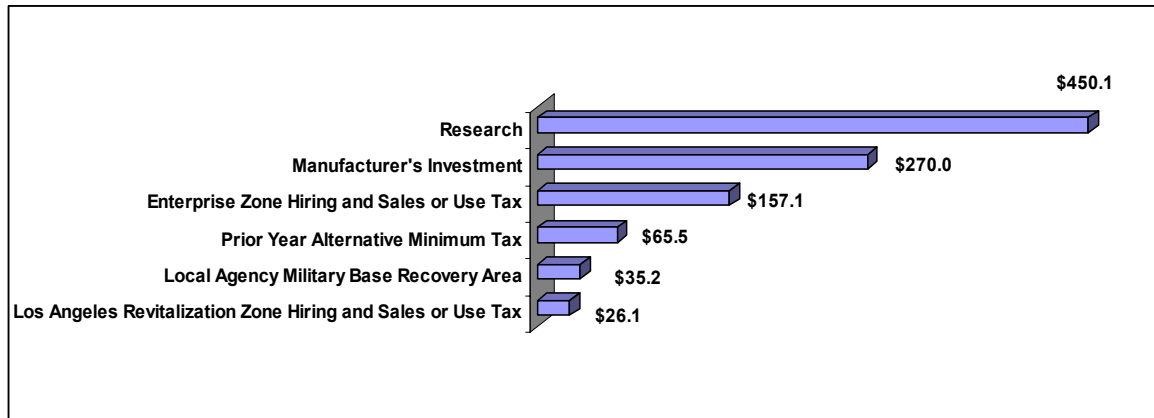

- ❑ C Corporations other than banks and financial corporations 8.84%
- ❑ S Corporations other than banks and financial corporations 1.50%
- ❑ C banks and financial corporations 10.84%
- ❑ S banks and financial corporations 3.50%

For corporations subject to the minimum franchise tax, the gross tax is the larger of the minimum franchise tax of \$800 or the calculated tax from the California Taxable Income.

Tax Credits

Tax credits are employed to promote economic or societal goals, or to provide relief to certain taxpayers. Appendix Table C-7 provides a list of credits available to taxable year 2002 corporation filers, along with the number of claimants and the dollar amounts claimed. Note on Table C-7 that, of the 39 credits listed, 17 credits had expired prior to 2002 and were reporting the results of their carryover provisions. Also, note the similarity between Table C-7 and the list of credits available to Personal Income Tax filers illustrated in Appendix Table B-8. Of the \$1.0 billion claimed by corporations, the following bar chart proportionately illustrates the six credits with claims over \$20 million each:

**Corporation Tax
SPECIAL CREDITS BY TYPE
Taxable Year 2002**

Alternative Minimum Taxes

California Corporation Tax Law, like Personal Income Tax Law, gives special treatment to some types of income and allows special deductions and credits for some types of expenses. The Alternative Minimum Tax (AMT) is designed to ensure that C Corporations (but not S Corporations) that take substantial advantage of these provisions pay at least a minimum level of tax in addition to applicable minimum franchise taxes.

An Alternative Minimum Taxable Income (AMTI) that exceeds \$40,000 is the base by which the tentative Alternative Minimum Tax is computed. The base for computing AMTI is the regular Taxable Income plus Adjustments plus Tax Preference Items. The California AMT rate for C Corporations was 6.65% for taxable year ending 2002. Banks and other financial corporations are also assessed an additional 2% of its regular taxable income. If the tentative alternative minimum tax amount is higher than the regular tax amount, the corporation must pay the Alternative Minimum Tax.

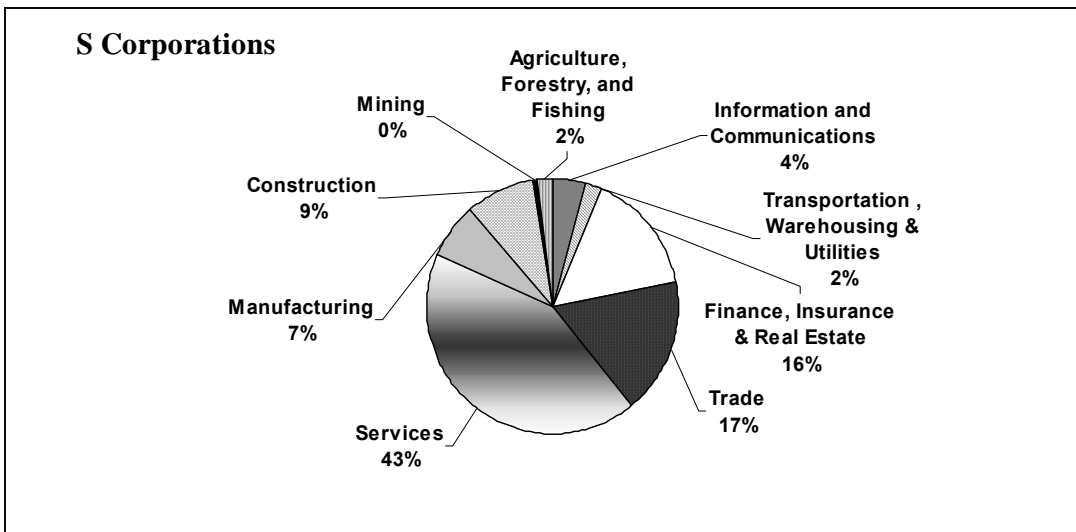

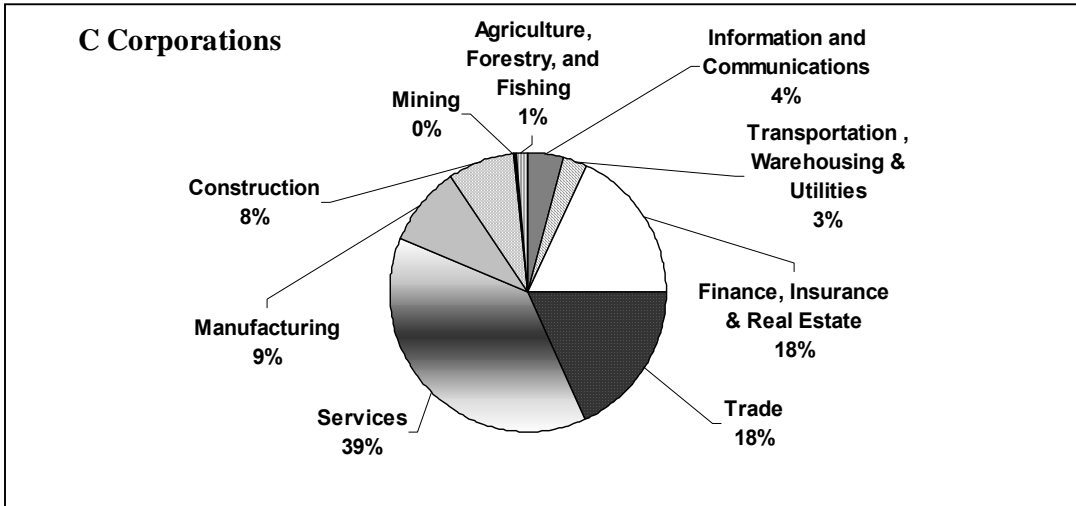

Total Tax Liability

For taxable year ending 2002, the amount of total tax from all corporation taxpayers was \$5.6 billion, including \$5.1 billion from C Corporations, and \$0.5 billion from S Corporations.

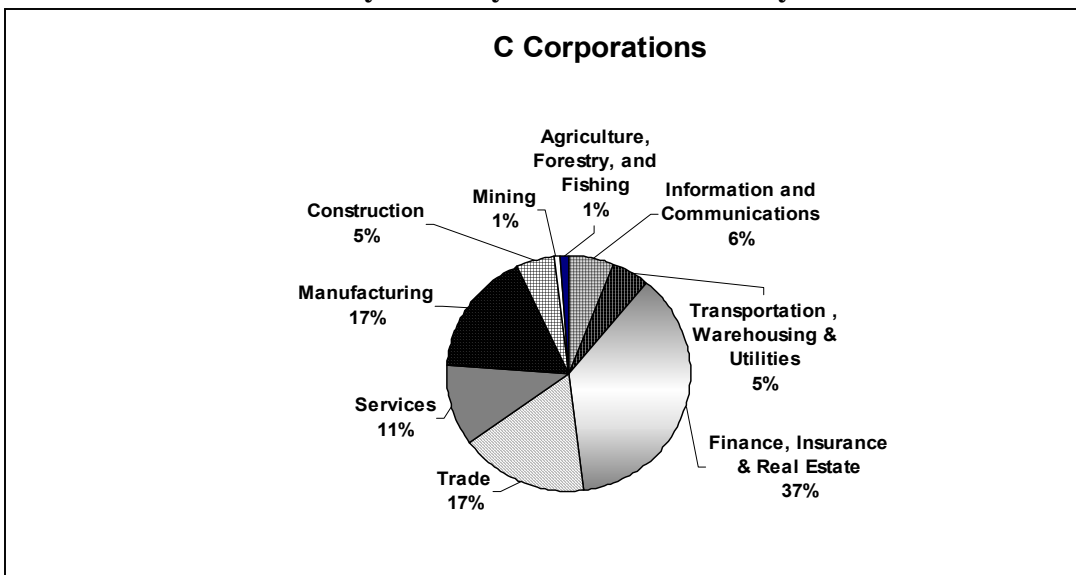

Statistical Analysis by Corporate Business Type

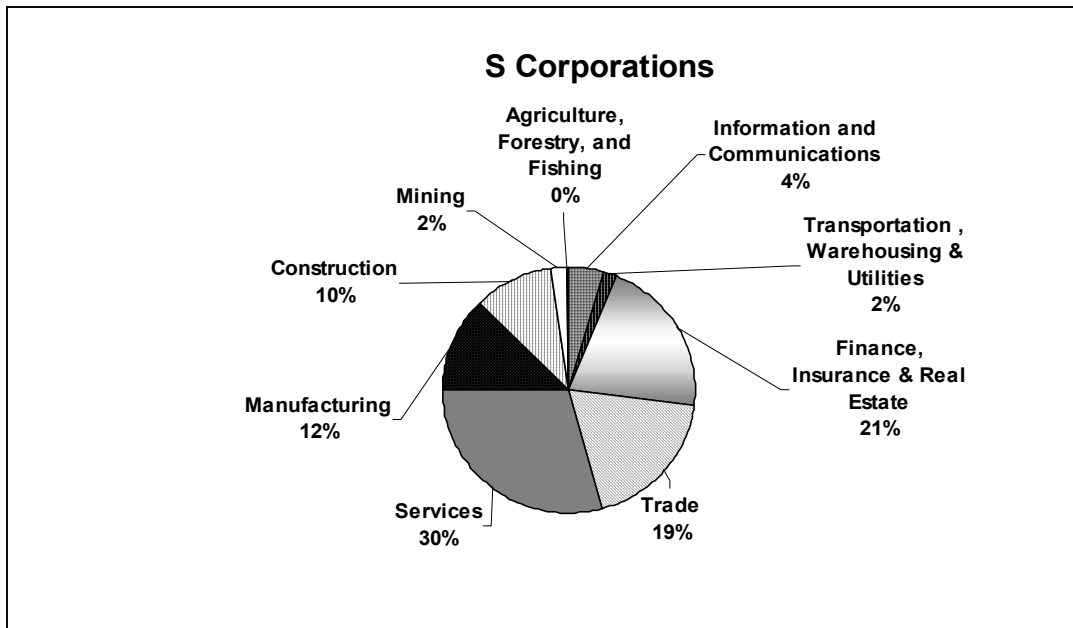

The Appendix C tables provide detailed statistical data about the corporations discussed within this section. The tables include comparisons between C Corporations and S Corporations between the 2001 taxable year and the 2002 taxable year, and comparisons among net income classes, among industry types, and among accounting periods. The following graphs and charts serve to highlight the most significant comparisons:

By Industry: Returns Filed

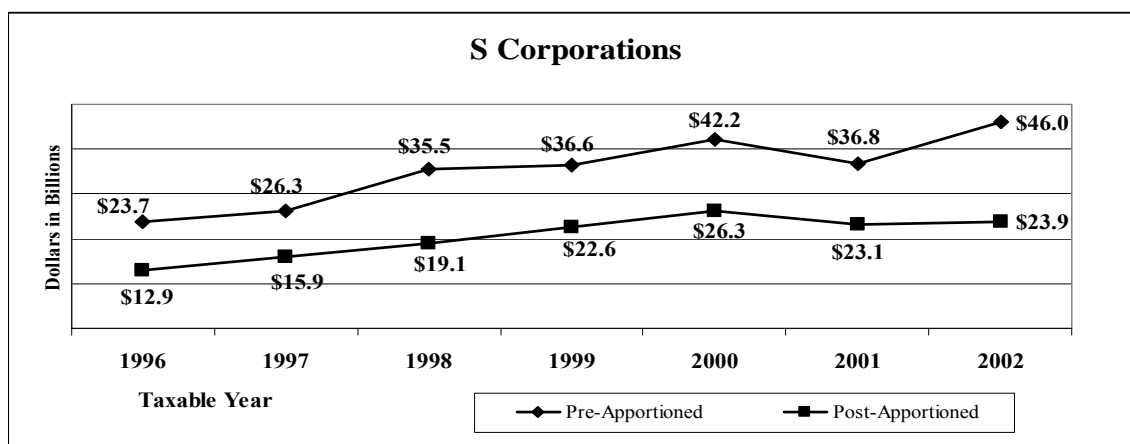

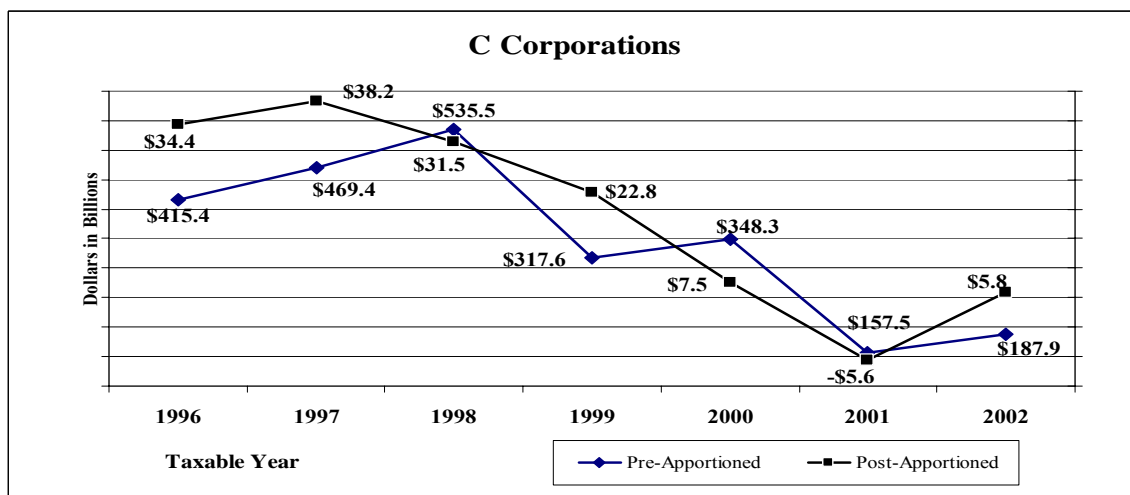

By Industry: Total Tax Liability

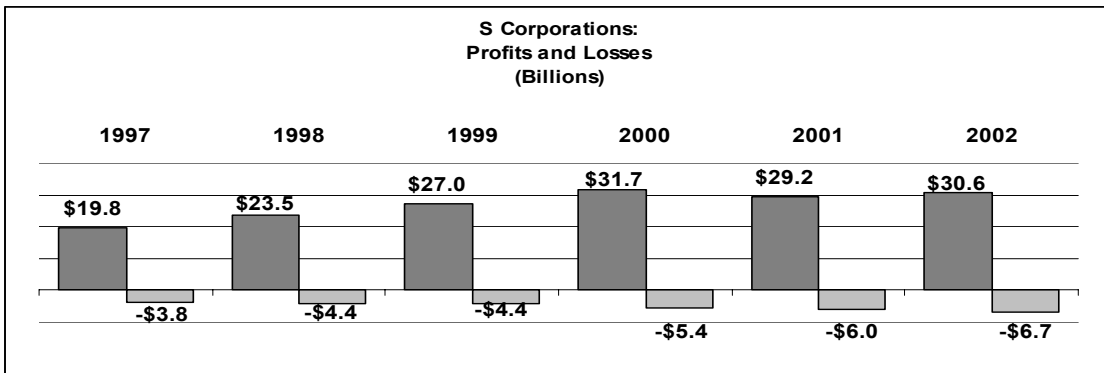

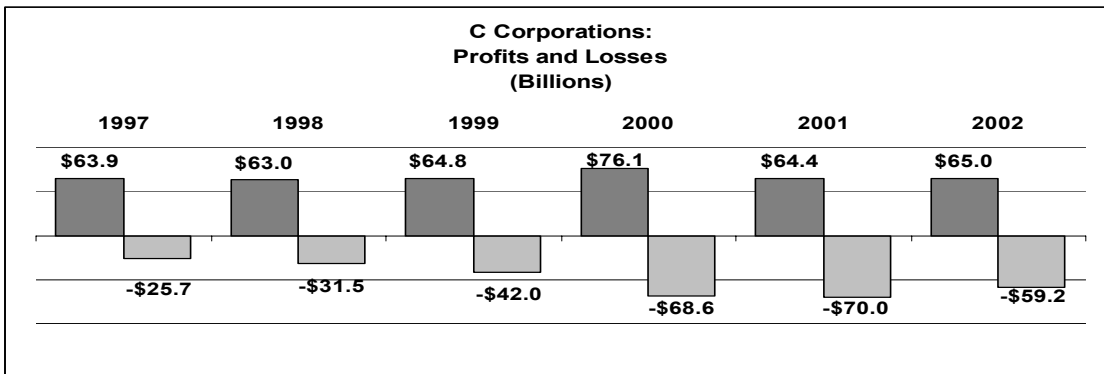

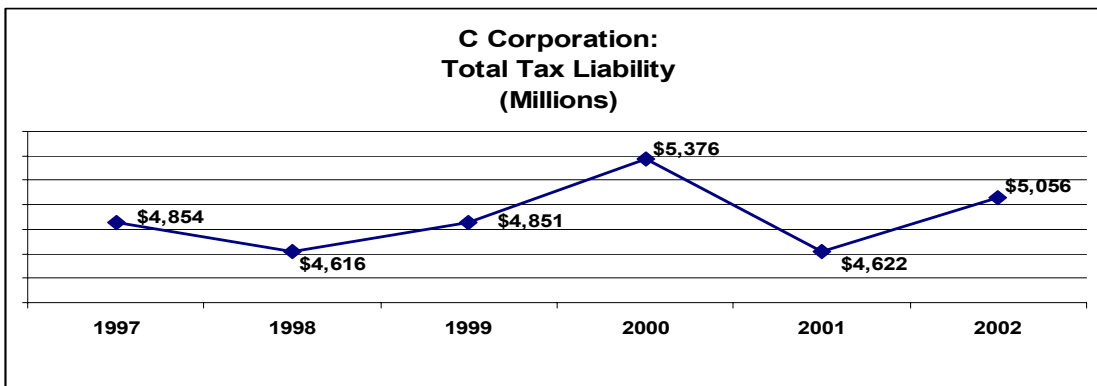

By Pre-Appointed and Post-Appointed Net Income

By State Net Income and Loss

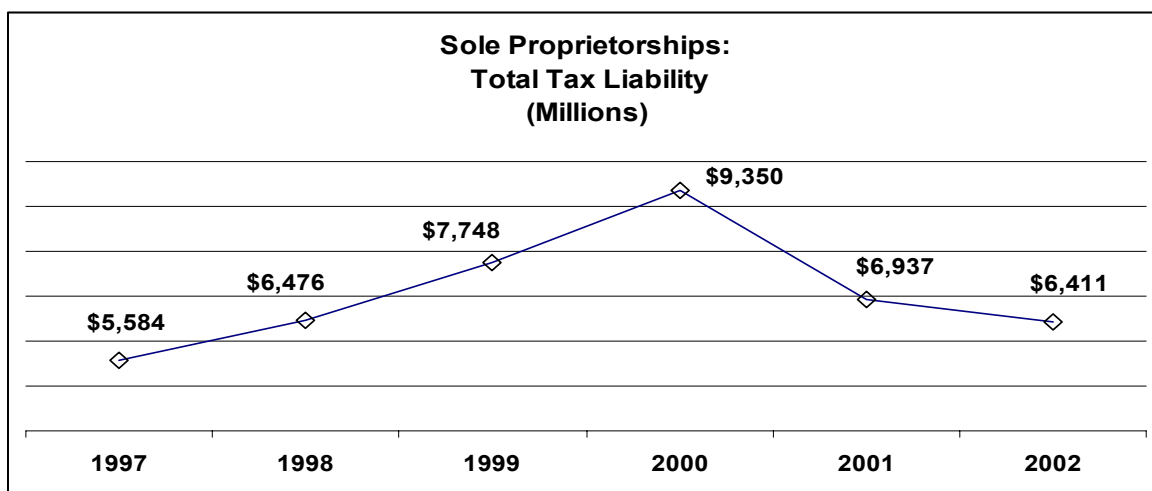

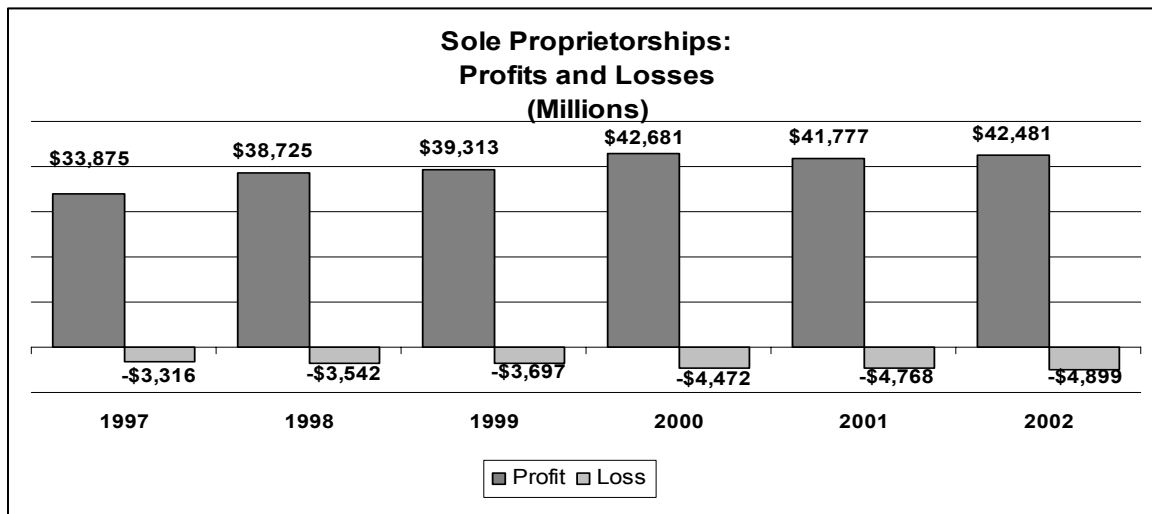

By State Tax Liability

Sole Proprietorships

For the 2002 taxable year, 13.6 million California resident Personal Income Tax returns were filed, of which 2.2 million (16.7%) reported activity from sole proprietorship businesses. Of the 2.2 million sole proprietorships, 1.7 million (73.2%) realized a total net profit of \$42.5 billion, or an average profit of \$25,660, while 607,150 (26.8%) realized a total net loss of \$4.9 billion, or an average loss of \$8,069.

The following graph illustrates that, during the past six taxable years, sole proprietorship businesses remained relatively stable in terms of the amount of total profits and losses and the corresponding tax liability.

Appendix Table B-5 displays the 2002 Sole Proprietorships according to major industry type. For each major industry type, the percent of Adjusted Gross Income attributable to sole proprietorship business endeavours were as follows:

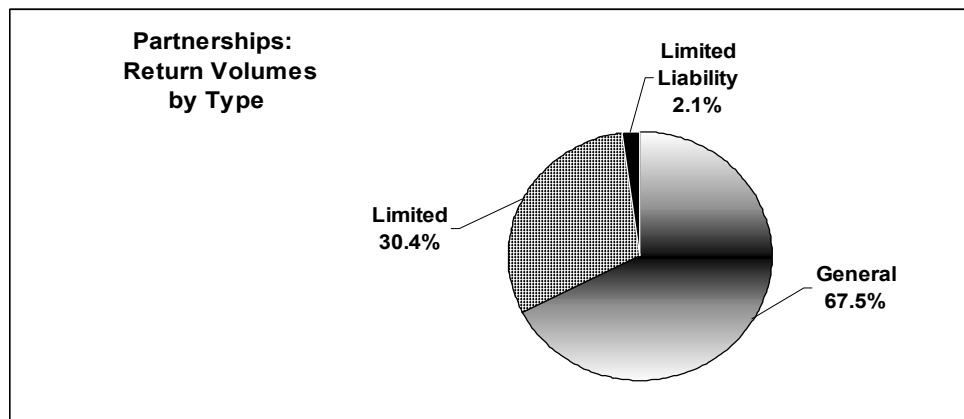

<p align="center">Business Entities Sole Proprietorships Adjusted Gross Income Attributable to Sole Proprietorships</p>			
Industry Type	Millions		Percent of AGI from Sole Proprietorship
	Adjusted Gross Income	Sole Proprietorship Income	
Agriculture, Forestry, Fishing, and Mining	\$ 2,463.9	\$ 38.2	1.6%
Construction	7,437.6	3,195.7	43.0%
Manufacturing	2,715.8	769.0	28.3%
Services	83,331.1	19,956.8	23.9%
Trade	14,315.2	2,817.8	19.7%
Finance, Insurance, and Real Estate	20,652.5	7,049.0	34.1%
Transportation, and Public Utilities	2,267.3	731.8	32.3%
Information	3,189.0	286.6	9.0%
Nature of Business not Allocable	14,818.5	2,737.0	18.5%
Total	\$ 151,190.9	\$ 37,581.9	24.9%

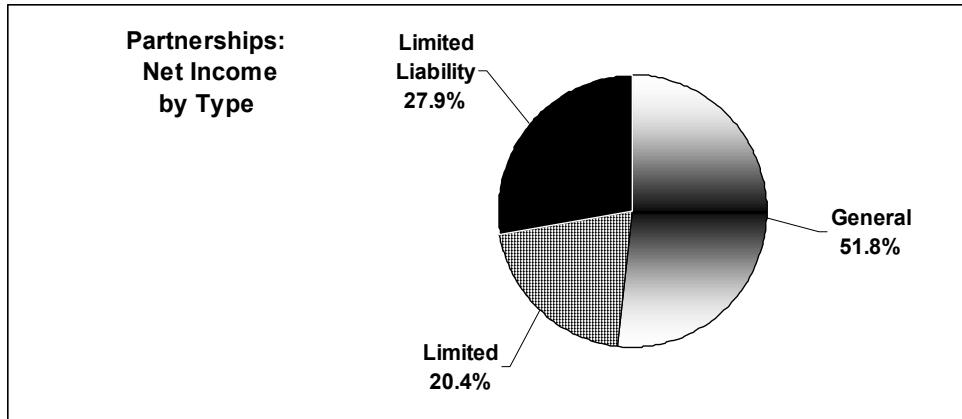

Partnerships

Partnerships are unincorporated businesses owned by two or more people engaged in business for profit. All partnerships that engage in a trade or business within California or otherwise generate income from California sources are required to report their partnership activities to California on tax form FTB-565.

For taxable year 2002, 184,651 partnerships filed form FTB-565 with the Franchise Tax Board, a 1.8% decrease from the prior year's total of 188,096, and a 28,443 (13.3%) decrease since 1997.

Of the 184,651 returns filed by partnerships for taxable year 2002, only 29.9% (55,254) reported profits. Pre-apportioned profits totaled \$72.5 billion, or a per-partnership average of \$1.3 million. Simultaneously, 70.1% (129,397) partnerships reported pre-apportioned losses totaling \$20.4 billion, or an average loss of \$157,570. A comparison of the following pie charts illustrates the worldwide profitability results of the three partnership types.

General Partnerships

General Partnerships (GPs) filed 124,649 (67.5%) of the total FTB-565 returns filed for the 2002 taxable year. They also reported 51.8% (\$27.0 billion) of the total partnership net income. Among the GPs, only 36.0% (44,930) reported profits, and their total profits of \$30.3 billion equated to an average profit of \$674,855. In addition, 64.0% (79,719) of the GPs reported losses totaling \$3.4 billion, or an average loss of \$42,200.

Limited Partnerships

For the 2002 taxable year, 30.4% (56,122) of all partnerships were Limited Partnerships (LPs), reporting 20.4% (\$10.6 billion) of a total net income from partnerships. Among the LPs, 13.7% (7,713) reported profits, of which profits totaled \$27.3 billion, or a per-LP profit of \$3.5 million. The remaining 86.3% (48,409) of LPs reported losses totaling \$16.7 billion, or a per-LP loss of \$344,800.

Limited Liability Partnerships

Limited Liability Partnerships (LLPs) filed 3,879 FTB-565 returns, representing only 2.1% of the total partnership returns, but reported 27.9% (\$14.5 billion) of the total partnership net income of \$52.1 billion; 2,611 LLPs (67.5% of all LLPs) reported profits totaling \$14.8 billion or a per-LLP average of \$5.7 million. In contrast, 1,268 LLPs (32.5%) reported pre-apportioned losses totaling \$330.6 million, or an average loss of \$260,800.

Other California Business Entities

Limited Liability Companies

For the taxable year ending in 2002, 113,619 forms FTB-568 returns were filed by Limited Liability Companies (LLCs), a 17.5% increase from 2001's volume of 96,731 returns. Of the total LLC returns filed for 2002, 50,846 (45%) reported profits totaling \$57 billion and California tax liabilities totaling \$91 million, plus \$184 million in fees. Simultaneously, 62,773 LLCs (55%) reported \$37 billion in losses.

Estates and Trusts

For taxable year 2002, Franchise Tax Board received 294,050 returns from estates and trusts, a 0.9% increase from the 291,478 returns received for taxable year 2001.

Taxable income reported on forms FTB-541 generated \$274 million tax in taxable year 2002, a 14.4% decrease from the prior year's tax receipts of \$320 million.

Exempt Organizations

In the taxable year ending in 2002, there were 151,931 active exempt organizations in California, of which 84,065 (55.3%) filed returns. In comparison with 147,061 active exempt organizations in 2001, of which 83,139 filed returns, taxable year 2002 realized a 3.3% and 1.1% increase, respectively.

(Blank Page)

Homeowner and Renter Property Tax Assistance

Program Description

The Homeowner and Renter Assistance Program provides, to low-income senior and disabled homeowners and renters, partial reimbursement of the previous fiscal year's property taxes that they paid directly or indirectly (through rent) for their principal residence. To be eligible for assistance in 2003, the claimant's total household income for the prior calendar year could not exceed \$37,676. Total household income is determined by adjusted gross income plus non-taxable income from Social Security, public assistance, pensions and annuities, unemployment compensation, interest, life insurance proceeds, gifts in excess of \$300, and worker's compensation.

For homeowners, the *maximum* reimbursement is determined by the amount of property tax paid on the first \$34,000 of assessed value of their home. For renters, the maximum reimbursement is based on the legal presumption that \$250 of their annual rent expense is applied to property tax. For both homeowners and renters, the *actual* amount of tax assistance ranges inversely to the claimant's total household income, from 4% to 96% of the maximum allowable reimbursement. For claim year 2003, qualified homeowners could have received payments ranging from \$20 to \$473, and qualified renters could have received from \$15 to \$348 per year.

The filing season for Homeowner and Renter Assistance claims is from July 1 through October 15. The Franchise Tax Board also accepts claims through June 30 of the year following the claim year for which assistance is requested. To claim assistance, homeowners must file Form 9000, *Homeowner Assistance Claim*, and renters must file Form 9000R, *Renter Assistance Claim*.

History

The California Homeowner and Renter Property Tax Assistance Program was initiated in 1968 to provide partial property tax relief to low-income homeowners over 64 years of age. The California Legislature later made periodic program changes, including extending assistance to low-income senior homeowners 62 years and older (1972), to senior renters (1977), and to totally disabled homeowners and renters irrespective of age (1979). In 2000, the Legislature responded to a long-ignored inflationary factor by providing qualifying homeowners and renters with a *one-time* 150% increase in property tax assistance, and increasing the limitations on *total* household income from \$13,200 to \$33,132. The next year, they changed the household income eligibility requirements from a fixed amount to a flexible percentage based on the California Consumer Price Index, and permanently increased the property tax assistance payments by 45% above the *pre*-150% increase adjustment.

Homeowner and Renter Property Tax Assistance: 2003

During 2003, 582,338 households claimed property tax assistance, a decrease of 3.7% from the 2002 level of 604,695 claimants. Qualified homeowner and renter claimants received \$173.5 million in residential property tax assistance, representing a 2.7% decrease from the 2002 year level of \$178.4 million. The average household income among 2003 homeowner and renter claimants was \$12,646, and the average assistance amount was \$298.

Homeowner Assistance

Homeowners filed 24.3% of the total claims and received \$35.8 million, or 20.7% of the program's subsidy. The recipients' average household income was \$18,253 and the average homeowner assistance subsidy was \$254.

Homeowner claimants with less than \$5,000 total household income accounted for 2.4% all homeowner claimants and received 3.9% of the total homeowner assistance budget (Appendix Table D-3). Those with incomes less than \$25,000 accounted for 79% of the homeowner claimant population, and received 95.6% of the homeowner assistance budget.

Recipients in Imperial County received the highest average homeowner assistance payments of \$295, followed by San Francisco County at \$283, and Fresno County at \$276. Within California's largest county, Los Angeles, 32,291 homeowner claimants received over \$8.6 million in homeowner assistance, or an average household subsidy of \$268. For further information, see Appendix Table D-5.

Renter Assistance

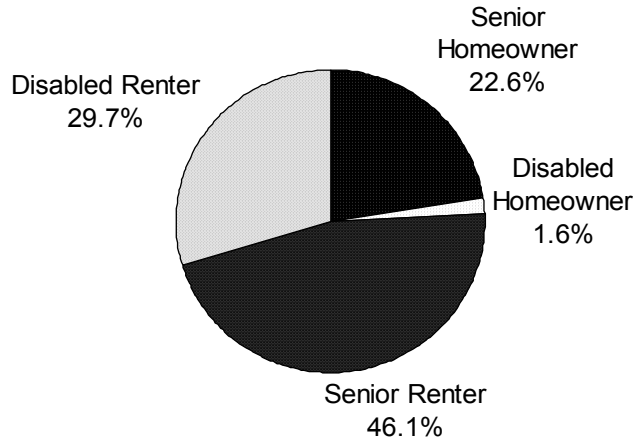

Renters made up the majority of the program participants by filing 75.7% of all claims. Renters received \$137.6 million through the program, representing 79.3% of the total assistance budget. Qualified renters had an average household income of \$10,850 and received an average assistance check of \$312.

Renters with income of \$5,000 and below accounted for 5.7% of renter claimants and 6.2% of total amount of renter assistance (Appendix Table D-4). Those with incomes less than \$25,000 accounted for 97.6% of the population and 99.7% of the total amount of the renter assistance budget.

Recipients in Imperial County received the highest average renter assistance payments of \$323, followed by Del Norte, Fresno and Kern counties, at \$321, and Yuba County at \$320. Within California's largest county, Los Angeles, 157,285 renter assistance claimants received over \$50.3 million, or an average household subsidy of \$319. For further information, see Appendix Table D-6.

Legislation

Personal Income Tax Law and Corporate Tax Law

The following significant legislation was enacted in 2003 and is applicable to taxable years beginning on or after January 1, 2003. This section describes each bill as it affects various portions of the California Revenue and Taxation Code administered by the Franchise Tax Board (FTB). References to the R&TC are to the Revenue and Taxation Code and references to IRC are to the United States Internal Revenue Code.

❑ ***Priority Used for the Addition of Voluntary Contribution Designations to the Tax Return***

AB 132 (Chapter 170)

This act, effective January 1, 2004:

- Provides a statutory rule to prioritize the addition of voluntary contribution designations to the tax return; and
- Authorizes FTB to add one or more voluntary contribution designations to the tax return if it is determined that space is available.

❑ ***California Fund for Senior Citizens / Extend Repeal Date to January 1, 2010***

AB 137 (Chapter 376)

This act, effective January 1, 2004, extends the California Fund for Senior Citizens contribution designation on the personal income tax return to January 1, 2010.

❑ ***Domestic Partners***

AB 205 (Chapter 421)

This act, effective January 1, 2004:

- Gives registered domestic partners the same community property rights that are granted to and imposed upon spouses in a civil marriage;
- Specifies that a domestic partner shall use the same filing status for state income tax purposes that was used or would have been used for federal income tax purposes;
- Specifies that earned income may not be treated as community property for state income tax purposes for a domestic partner; and
- States that the community property provision is operative January 1, 2005.

□ ***Exemption / Up to 50% of Clergy Member Salary For Rental Value or Allowance for Home***

AB 243 (Chapter 428)

This act:

- Increases the maximum amount that may be allocated as a housing allowance from gross salary of a state-employed member of the clergy from 25% to 50%;
- Changes the term ‘minister of the gospel’ to ‘member of the clergy’;
- Defines ‘member of the clergy’ to mean a priest, minister, religious practitioner, or similar functionary of a religious denomination or religious organization.

□ ***Conform to 2001 Federal Victims of Terrorism Relief Act /Disability Trust Credit / Estimate Tax Payment Computation / Correct Omission of AMT / S Corporation Election / Federal “S” Election Shall Apply for the State***

AB 967 (Chapter 268)

This act, effective January 1, 2004, does the following in regard to:

S Corporations

- Provides that the termination of S corporation status resulting from having passive investment income exceeding 25% of gross receipts only applies at the state level if it applied at the federal level and the federal S status was terminated;
- Removes the state language prohibiting a financial S corporation from using the reserve method for bad debts (thus, not permitting a separate reserve method election at the state level that would trigger a state only termination of S status); and
- Makes numerous amendments removing obsolete language, mostly transitional or effective date language going back to when California first recognized S Corporations in 1987 and makes clerical adjustments, such as inserting “income tax” into the phrase “federal purposes”.
- The S Corporation provisions of this act is operative for taxable years beginning on or after January 1, 2004.

Estimated Tax Payments

- Requires that alternative minimum tax (AMT) be included in the computation of the required estimated tax payments in order to meet a safe harbor from the underpayment of estimated tax penalty.
- The AMT inclusion provision of this act is operative for taxable years beginning on or after January 1, 2005.

Disability Trusts

- Conforms to the Victims of Terrorism Tax Relief Act provision by allowing the state equivalent personal exemption credit to disability trusts; and
- Increases the credit for disability trusts from \$1 to an amount equal to the personal exemption credit for single individuals.
- The personal exemption credit of \$80 for the 2002 taxable year, is annually adjusted for inflation.
- The disability trust provision is operative for taxable years beginning on or after January 1, 2004.

□ ***Tax Shelters & Tax Avoidance / Increase in Penalties Imposed / FTB to Develop & Administer Voluntary Compliance Initiative***
AB 1601 (Chapter 654) & SB 614 (Chapter 656)

These acts:

- Create a regime of penalties and reporting requirements for investors, promoters, tax advisors, and tax preparers involved in abusive tax shelters to identify existing abusive tax shelter transactions on tax returns filed in prior years and to curtail the use of abusive tax shelters in future years;
- Provide for a voluntary compliance initiative permitting a taxpayer to file an amended return and pay the tax and interest associated with the abusive tax shelter;
- Extend the statute of limitations for taxpayers involved in abusive tax shelters from four to eight years;
- For taxpayers involved in an abusive tax shelter, expand the department's ability to issue a subpoena;
- Expand the rules to obtain an injunction against abusive tax shelter promoters from marketing the shelter within this state; and
- Impose interest on deficiencies mailed to taxpayers with taxable income greater than \$200,000 and involved in an abusive tax shelter.

□ ***Golden State Scholarshare Trust Tech / Erroneous Refund Interest / Authority to Use New-Hire Registry Information / Minimum Franchise Tax / 15-Day Disregard Rule / Mandatory E-File Technical Change***
AB 1742 (Chapter 455)

This act, effective January 1, 2004:

- Renumbers the tax law code section for the Golden State Scholarshare Trust;

- Clarifies FTB's authority to use the information contained in the new-hire and contractor registries maintained by the Employment Development Department when collecting on Non-Tax Debt Programs administered by FTB;
- Clarifies that a corporation's period of inactivity of 15 days or less between the date of incorporation and the beginning of its next annual accounting period would be disregarded as a taxable year;
- Allows interest abatement on high-dollar erroneous refunds that are repaid in 30 days; and
- Clarifies the operative date regarding a provision of recently enacted law that requires individual income tax returns prepared by certain tax practitioners to be e-filed with FTB.

FTB sponsored the first three provisions listed above.

□ ***Annual Technical Code Maintenance***
AB 1743 (Chapter 185)

This Code maintenance act, effective January 1, 2004, corrects cross-references, repeals obsolete provisions contained in state law, and amends provisions to reflect the current style for drafting legislation.

□ ***Mandatory E-File For Tax Practitioners***
AB 1756 (Chapter 228)

This act, effective August 11, 2003, requires tax practitioners that prepare more than 100 individual income tax returns in a calendar year to electronically file (e-file) all individual returns with FTB beginning with the following calendar year.

This act applies to individual income tax returns that are required to be filed for taxable years beginning on or after January 1, 2004.

□ ***Personal Information / Security of Social Security Numbers***
SB 25 (Chapter 907)

This act, effective January 1, 2004, removes the exemption for state and local agencies as a person or entity restricted from using social security numbers (SSNs). Specifically, this act prohibits a person or entity from:

- Publicly posting or displaying an individual's SSN;
- Printing an individual's SSN on any card required to access products or services;
- Requiring an individual to use his or her SSN to access an Internet website unless a password or unique personal identification number is also required to access the website; and

- Printing an individual's SSN on any materials that are mailed to the individual, unless state or federal law requires the SSN to be on the document to be mailed. Notwithstanding this provision, applications and forms sent by mail may include SSNs.
- This act is operative for FTB beginning January 1, 2007, and applies to the department's use of SSNs on and after that date.

□ ***Emergency Food Assistance Program Fund***
SB 43 (Chapter 317)

This act, effective January 1, 2004, extends the Emergency Food Assistance Program Fund contribution designation on the personal income tax return to January 1, 2009.

□ ***California Missions Foundation Fund***
SB 92 (Chapter 460)

This act, effective January 1, 2004, establishes the California Missions Foundation Fund for contribution designation on personal income tax returns. The fund appears on the 2003 tax returns filed on or after January 1, 2004.

□ ***Regulated Investment Companies (RIC) Used to Avoid Tax***
SB 103 (Chapter 655)

This act explicitly denies corporate shareholders of a RIC a dividend deduction for earnings in a RIC that are not from stock dividends for taxable years beginning on or after January 1, 2003. Legislative intent language prohibits any inference from being drawn from the operative date of the amendments made by this act with respect to any matter governed by the RIC provision of the R&TC for taxable years beginning before January 1, 2003. Thus, this act allows taxpayers previously taking this deduction to challenge the department's denial of this deduction for taxable years beginning before January 1, 2003.

□ ***California Firefighter's Memorial Fund / Allocation of Funds***
SB 180 (Chapter 189)

This act, effective January 1, 2004, changes the permissible uses for funds allocated to the California Fire Foundation.

❑ ***Innocent Spouse Relief / FTB Report to Legislature***
SB 285 (Chapter 370)

This act, effective January 1, 2004, provides that if an individual receives relief from income tax liabilities under the federal innocent spouse provisions, that individual would also receive relief under the state innocent spouse provisions.

This act applies to 1) any tax liability that becomes final on or after the effective date of the act; and 2) any tax liability that became final before the effective date of the act and remains unpaid as of that date. The innocent spouse provisions as amended in this act cease to be operative as of January 1, 2009. The previous innocent spouse provisions will be reinstated as of January 1, 2009.

❑ ***FTB Include Voter Registration Card With PIT Filing Forms Mailed Annually***
SB 448 (Chapter 412)

This act, effective and operative January 1, 2004, requires the Franchise Tax Board to include a voter registration card with the Personal Income Tax (PIT) forms that are mailed annually to taxpayers. This Act applies to all PIT tax booklets mailed on and after the operative date.

❑ ***State Agency Contracts / Expatriate Corporations / California Taxpayer and Shareholder Act of 2003***
SB 640 (Chapter 657)

This act, effective January 1, 2004, creates the California Taxpayer and Shareholder Protection Act of 2003. Provisions of this act:

- Prohibit the state from entering into contracts with expatriate corporations or their subsidiaries, as defined;
- Allow the executive officer of a state department or agency (or a designee) to waive the prohibition if the contract is necessary to meet a “compelling public interest”, as defined;
- Require each vendor (not receiving a waiver) submitting a bid or contract proposal to self-certify that it is an eligible vendor with:
 - The contacting agency for calendar year 2004, and
 - The Department of General Services for calendar year 2005 and thereafter;
- Permit contracts with corporations that expatriated before January 1, 2004, if that corporation:
 - Provides shareholders with enumerated rights, and
 - Agrees to calculate state income tax liability using worldwide combined reporting; and

- Apply to corporations that expatriated before January 1, 2004, for contracts entered into on or after April 1, 2004.

□ ***Whistleblowers Protection***

SB 777 (Chapter 484)

This act, effective January 1, 2004, expands whistleblower protection laws to:

- Prohibit employers from taking retaliatory actions against employees who refuse to participate in illegal activities and impose a \$10,000 penalty on corporations and limited liability companies that violate this prohibition; and
- Require the Attorney General to maintain a “whistleblower hotline” to receive information about illegal activity.

□ ***Use Tax / FTB Revise Forms / State Agencies Contracting with Contractors or Vendors***

SB 1009 (Chapter 718)

This act, effective January 1, 2004, allows persons to elect to report and remit qualified use tax on their income tax returns. The election could be made if the person purchases tangible personal property where the storage, use, or other consumption would subject the purchase to the qualified use tax that would otherwise be required to be reported and paid under current use tax law. The election under this act does not apply to those taxpayers that are required to have a seller’s permit or be registered with the Board of Equalization.

The act states that it is operative for purchases of tangible personal property made on or after January 1, 2003, in taxable years beginning on or after January 1, 2003, and ending on or before December 31, 2009.

□ ***Water’s-Edge Election Procedures / Definition of “Taxable Year” / Exempt Organizations / Applications for Exemption or Amending Articles of Incorporation / “Corporation” includes Limited Liability Companies***

SB 1061 (Chapter 633)

This act:

- Adds a definition of the term “Taxable Year” for California franchise tax purposes that was inadvertently repealed for taxable years beginning on or after January 1, 2000;
- Fundamentally reforms the water’s-edge election procedures to resolve problems that arise with elections made under the current contract rules. Under this act, water’s edge elections would be made by statutory election rather than by contract;

- Eliminates inconsistencies between the Corporations Code and the R&TC regarding the ability of a suspended corporation to apply for tax-exempt status; and
- Allows exemption from taxation for specified limited liability companies.

FTB sponsored the first three provisions listed above.

□ ***Sales and Use Tax Claims for Refund / Clarifying Changes***
SB 1064 (Chapter 606)

This act, effective January 1, 2004, clarifies that a taxpayer may not request a sales tax refund, in lieu of the Manufacturer's Investment Credit (MIC), in excess of the amount of the MIC that could be applied to reduce the tax (or net tax) after first applying all other credits. It states that a MIC carryover credit may not be refunded until the year that MIC carryover can be applied to reduce the tax (or net tax).

This act specifies that the changes are declaratory of existing law, but effective for claims for refund filed with the Board of Equalization on or after August 7, 2003.

□ ***Effect of Federal Elections Made Prior to Becoming a California Taxpayer***
SB 1065 (Chapter 486)

This FTB-sponsored act, effective January 1, 2004, mandates that federal tax elections made by a person prior to becoming a California taxpayer apply for California purposes.

Legal Rulings and Franchise Tax Board Notices

Legal Rulings

Legal Rulings are issued to publish the Franchise Tax Board's official conclusion on how the law is applied to a specific set of facts. Because they are generally interpretive of existing law, they have retroactive effect unless otherwise stated in the ruling. During 2003, the Franchise Tax Board published three Legal Rulings on the following subjects:

❑ **Sourcing of Partnership, S Corporation and Trust Items for a Part-Year Resident**

Legal Ruling 2003-1

The purpose of this ruling is to provide guidance to a part-year resident taxpayer who is a partner, shareholder or beneficiary of partnerships (including limited liability companies classified under federal and California tax law as partnerships), S Corporations, and certain trusts. The ruling addresses the appropriate inclusion and sourcing of items to be reported from partnerships, S Corporations, and trusts during any part of the taxpayer's own or the partnership's, S corporation's, or trust's taxable year.

❑ **Application of Profit Split Method to Water's-Edge Taxpayers with Possessions Corporation Affiliates**

Legal Ruling 2003-2

The purpose of this ruling is to answer the question: "*May a water's edge taxpayer use the federal profit split method to allocate income and deductions of its possessions corporation affiliate?*" The federal "profit split method" for allocating income and deductions of a possessions corporation under the water's-edge method may not be used since California does not conform to Internal Revenue Code section 936. Taxpayers must instead allocate such income and deductions under Internal Revenue Code section 482 and the regulations thereunder (without regard to any election to use the profit split method for federal tax purposes).

❑ **Inclusion of Business Income Dividends in the Recipient's Sales Factor**

Legal Ruling 2003-3

The purpose of this ruling is to answer the question: "*When does income-producing activity exist with respect to a business income dividend so that the dividend is includible in the recipient's sales factor?*" The ruling clarifies the distinction between 'mere holding' and 'income-producing activity' regarding business income dividends.

FTB Notices

FTB Notices are general procedures to be followed with respect to administrative procedures. During 2003, the Franchise Tax Board published 10 FTB Notices discussing the following subjects:

- ❑ **Effective Dates - Overpayments on Prior Year Returns: Legal Ruling 94-4 Withdrawn**
FTB Notice 2003-1

The notice announced the withdrawal of Legal Ruling 94-4, regarding the effective date of a credit from an overpayment reported on a timely filed return for a prior taxable year. The notice also announced the substitution rule whereby the overpayment credit amount shall be deemed paid on the original due date of the subsequent year's return.

- ❑ **Settlement of Civil Tax Matter Disputes - Updated and Revised Procedures**
FTB Notice 2003-2

The notice announced updated settlement procedures, including instructions and addresses for corresponding with the Settlement Bureau, and distinguishes the Settlement program from the Offer-in-Compromise program.

- ❑ **Manufacturers' Investment Credit - Ready-Mixed Concrete and Cement Trucks: Legal Ruling 2001-4 Withdrawn**
FTB Notice 2003-3

The notice announced the withdrawal of Legal Ruling 2001-4, relating to qualification for the Manufacturers' Investment Credit of certain ready-mixed concrete and cement trucks, per the Appeal of *Jon and Rita Minnis and Milpitas Materials Company*, 2002-SBE-003, June 20, 2002.

- ❑ **Request for Public Comment -- Discussion Draft of Proposed Changes to California Code of Regulation, Title 18, Section 17952**
FTB Notice 2003-4
(Also refer to FTB Notice 2003-8: Cancellation of Request for Public Comment)

FTB Notice 2003-4 announced the development of a discussion draft of amendments and solicited public comment with respect to the existing regulation under Revenue and Taxation Code section 17952. The proposed amendments would add provisions designed to address the timing of sourcing of gains on the sale or transfer of intangible personal property.

❑ **2001 Legislative Changes - Informal Refund Claims**

FTB Notice 2003-5

The notice announced procedural changes for reporting and filing ‘informal refund claims’ resulting from a 2001 legislative change. Revenue and Taxation Code section 19322.1 (Stats. 2001, Ch. 920, Sec. 25) allows for ‘informal refund claims’ to be perfected and deemed filed on the date that full payment of tax is made for purposes of tolling (delaying the expiration of) the statute of limitations.

❑ **Procedures For Making the Election to Defer Certain Gain From the Sale of Qualified Small Business Stock**

FTB Notice 2003-6

FTB announced the election procedures to be followed for California purposes by taxpayers other than individuals wishing to elect to rollover gain from the sale of small business stock where the sales proceeds were used to purchase other qualified small business stock within 60 days.

❑ **Withdrawal of Obsolete Legal Ruling**

FTB Notice 2003-7

FTB announced the withdrawal of Legal Ruling 2001-2 per the *Appeal of the Appeal of Christian Community Credit Union*, 2002-SBE-009, December 3, 2002. Legal Ruling 2001-2 related to the application of Revenue and Taxation Code section 24405, subdivisions (c) and (d), regarding state-chartered credit unions.

❑ **Cancellation of Scheduled Symposium -- August 13, 2003, Discussion Draft of Proposed Changes to California Code of Regulations, Title 18, Section 17952**

FTB Notice 2003-8 (Refer to FTB Notice 2003-4:Request for Public Comment)

FTB announced the cancellation of the public symposium intended to discuss proposed amendments to California Code of Regulations, Title 18, Section 17952, relating to provisions designed to address the timing of sourcing of gains on the sale or transfer of intangible personal property.

❑ **Revenue Procedure 2003-33: Automatic Extensions to Make Internal Revenue Section 338 Elections**

FTB Notice 2003-9

FTB announced rules applicable for California purposes as a result of federal Revenue Procedure 2003-33, relating to federal automatic extensions to make Internal Revenue Code Section 338 elections.

- ❑ **Repeal of the Manufacturers' Investment Credit (MIC)**
FTB Notice 2003-10

FTB announced that the California Legislative counsel had issued a written opinion that the Manufacturers' Investment Credit has been repealed by its own terms and was inoperative as of January 1, 2004.

Tax Appeals

Taxpayers who disagree with the Franchise Tax Board's action on their protest or claim for refund may appeal the decision to the State Board of Equalization (SBE). The Franchise Tax Board's Legal Department staff is responsible for representing FTB's position.

In 2003, 1,322 new appeals involving over \$69 million were filed with SBE, compared to 1,378 new appeals involving \$277 million in 2002. Also during 2003, 1,235 appeals were completed.

'Published' decisions are those decisions that establish precedent for future case interpretation. SBE issued three published decisions that are briefly summarized below:

- ❑ **Appeal of California Steel Industries, Inc.**
2003-SBE-001 & 2003-SBE-001-A

The SBE's decision, on a petition for rehearing filed by FTB, held that appellant's payments to an independent contractor for construction of certain qualified property were properly treated as "capitalized labor costs that are directly allocable to the construction of qualified property" for purposes of the Manufacturers' Investment Credit. The decision further stated that, for purposes of the Manufacturers' Investment Credit, labor costs comprise all costs paid or incurred for services rendered in connection with the construction or modification of qualified property, including any overhead and profit attributable to such services.

- ❑ **Appeal of Stephen B. Bragg**
2003-SBE-002

The SBE held that appellant became an Arizona resident in 1993 based upon the facts and circumstances presented in the case. The SBE also held that respondent's use of the 1989 three-factor apportionment formula of appellant's former business for sourcing payments made to appellant with respect to a covenant-not-to-compete was proper and consistent with the SBE's prior holding in *Appeals of Paul B. and Mary A. Milhous, et al.*, 2000-SBE-003.

❑ **Appeal of James N. Harger**
2003-SBE-003

The SBE disallowed a claimed charitable deduction of a residential structure because appellant was unable to establish, by documentary evidence or testimony, that the structure was ever actually delivered to the charitable organization.

Litigation — Filings, Closings, and Significant Decisions

There were 19 new cases filed in the year 2003 and 14 were closed. The Franchise Tax Board's position was sustained in 8 of the 14 cases and 5 cases were settled. In only 1 case was the position of the Franchise Tax Board reversed. The state was able to sustain 77% of the tax at issue with respect to the cases that were closed. Of the \$733,421 of tax at issue, \$565,550 was sustained.

❑ **Superior Court**

Judicial review of the validity of tax assessments is generally obtained by filing a suit for refund in Superior Court after the Franchise Tax Board has denied a claim for refund or the taxpayer deems it denied. There were 18 cases that went to trial in 2003 and the Franchise Tax board was sustained in 13 of those cases.

❑ **California Courts of Appeal**

Either the taxpayer or the Franchise Tax board may appeal an adverse Superior Court decision to the Court of Appeals. In 2003 there were 3 decisions issued by the Court of Appeals on tax cases where the department was a party. The Franchise Tax Board was sustained in an unpublished decision in 1 case and lost in published decisions in the other two cases, *Farmer Bros Co. v. Franchise Tax Board* (2003) 108 Cal App 4th 976 and *J.H.McKnight Ranch, Inc. v. Franchise Tax Board* (2003) 110 Cal App 4th 978.

The significant appellate decision was *Farmer Bros*. The Court of Appeal held that section 24402 of the Revenue and Taxation Code is unconstitutional because it discriminates against interstate commerce by allowing a dividend deduction but only to the extent the dividends are paid from income that had previously been taxed by California.

❑ **California Supreme Court**

A party that loses at the appellate level can petition the California Supreme Court for a review of the appellate decision. Review is discretionary with the Court. A petition for review was filed in the California Supreme Court in *Farmer Bros*. The California Supreme Court declined to review the appellate decision.

❑ United States Supreme Court

A Petition for Writ of Certiorari can be filed with the United States Supreme Court in cases involving issues under the United States Constitution or the interpretation or application of federal Statutes. Review by the United States Supreme Court is discretionary.

The United States Supreme Court heard and decided the case of *Franchise Tax Bd. v. Hyatt* (2003) 538 U.S. 488, 155 L.Ed.2d 702¹. In that case the Franchise Tax Board argued that Hyatt should not be allowed to proceed in a tort action grounded in an audit of Hyatt's California residency proceed in the Nevada courts. The United States Supreme Court in a 9-0 decision held that the tort action could proceed. Trial is expected to occur sometime in 2006.

The Franchise Tax Board filed a Petition for Writ of Certiorari with the United States Supreme Court in *Farmer Bros.* That petition was pending at the end of calendar year 2003.

Settlement

The Franchise Tax Board is authorized to negotiate the settlement of administrative civil tax matter disputes to accelerate their resolution, reduce otherwise lengthy and costly administrative and court litigation procedures, and provide taxpayers with a similar alternative dispute resolution process available at the federal level. The Settlement Program settled 184 civil tax matter disputes during calendar year 2003. The 184 settled cases involved \$513.7 million in disputed liabilities. Of the \$513.7 million in dispute, \$371.7 million was sustained.

Of the cases settled, 24 were settled under the Franchise Tax Board's "small case" authority. Small cases involve reductions in tax and penalties of \$7,500 or less for cases settled during the 2003 calendar year. (The amount is adjusted each calendar year based on the change in the California Consumer Price Index.) These cases are approved by the Franchise Tax Board's Chief Counsel and the Executive Officer, and reported to the three-member Franchise Tax Board. The three-member Franchise Tax Board approved all remaining cases.

¹ Hyatt sued FTB in tort alleging various torts including invasion of privacy, outrage, and fraud arising from the department's audit to determine the date on which the plaintiff had terminated his California residency. In 2001 the Nevada Supreme Court had directed the Nevada trial court to enter summary judgment in favor of the Franchise Tax Board based upon its determination that Hyatt had no facts to support his allegations of torts. On a petition for rehearing the Nevada Supreme Court vacated its earlier decision and ruled that Hyatt could proceed on his intentional torts claims. The Franchise Tax Board filed a petition for writ of certiorari with the United States Supreme Court on the grounds that the Nevada Supreme Court's action violated the Full Faith and Credit Clause of the United States Constitution.

APPENDIX A
TABLES 1A, 1B, 1C
Personal Income Tax

SYNOPSIS OF TAX RATES
FOOTNOTES

* Adjusted gross income less deductions.

- a(1). For filing status types Married Filing Jointly (MFJ), Single & Married Filing Separately (S&MFS), and Head of Household (HOH)), the graduated tax rates were condensed from 15 to 6 brackets. The tax reduction effects were: no change for taxable incomes to \$5,000; 1% tax decrease for taxable incomes from \$5,000 to \$40,000; 2% decrease for taxable incomes from \$40,000 to \$50,000; 3% decrease for taxable incomes from \$50,000 to \$60,000; 4% tax decrease for taxable incomes from \$60,000 to \$70,000; 5% tax decrease for taxable incomes from \$70,000 to \$80,000; 6% decrease for incomes from \$80,000 to \$100,000; 7% tax decrease for taxable incomes from \$100,000 to \$150,000; 8% tax decrease for taxable incomes from \$150,000 to \$250,000; and 9% tax decrease for taxable incomes over \$250,000.
- a(2). In 1943, the 1% tax reduction for incomes between \$5,000 and \$30,000 was reversed.
- b. Prior to 1952, the tax rate brackets and tax rates were identical for Single & Married Filing Separately (S&MFS) filers, Married Filing Jointly (MFJ) filers, and Head of Household (HOH) filers. The equivalent rates and brackets portrayed an assumption that multi-party family household costs were identical to single party households and thus should be taxed at equivalent rates. In 1952, the tax rate brackets were adjusted to accommodate the income needs of MFJ households by bracketing the taxable income ranges at two times the S&MFS and HOH income ranges.
- c. The tax rate schedules of the three filing status types were increased by adding a seventh tax rate bracket. For MFJ filers, tax rates increased by 1% for taxable incomes from \$5,000 to \$15,000 and incomes over \$50,000; by 2% for taxable incomes from \$15,000 to \$25,000 and from \$40,000 to \$50,000; and by 3% for incomes between \$25,000 and \$40,000. For S&MFS and HOH filers, the 1% tax increase applied to incomes of \$2,500 - \$7,500 and \$25,000 and over; 2% for incomes from \$7,500 to \$12,500 and from \$20,000 to \$25,000; and 3% increase for incomes between \$12,500 and \$20,000.
- d(1). Prior to 1967, taxable income was determined by calculating adjusted gross income (AGI) less deductions less personal exemptions less dependent exemptions. The MFJ, S&MFS, and HOH filing status tables each had 7 tax rate brackets. For 1967, taxable income was redefined as AGI less deductions. Net tax liability was redefined as gross tax less personal exemptions less dependent exemptions. Three additional tax brackets were added to the 7-bracket tax tables for the 3 filing statuses. For MFJ returns, the median tax liability effect was a \$454 (45%) tax increase.
- d(2). A special 10% reduction in tax liabilities with a maximum of \$100 for S&MFS and \$200 for MFJ, was effective for the 1969 taxable year.
- d(3). A forgiveness tax credit of 20% was provided with respect to 1971 taxes, along with the enactment of the withholding and declaration of estimated tax program, effective 1972.
- e. The maximum tax rate was increased from 10% to 11%. A special income tax credit ranging from 20% to 100% of the tax liability was effective for the 1973 taxable year.
- f. The tax brackets were eased for heads of household effective with the 1974 taxable year.
- g. Beginning taxable income year 1978, tax rates are adjusted to compensate for inflationary factors determined by the June to June change in the California Consumer Price Index (less 3% for 1978 and 1979 and full indexing for 1980 and subsequent years (Stats. 1978, Ch. 569)). Tax rates were indexed at 5.22% for 1978, 6.88% for 1979, 17.33% for 1980, 8.26% for 1981, 9.32% for 1982, -1.2% for 1983, 4.6% for 1984 and 1985, and 3.5% for 1986. Indexing was suspended for 1987 by AB 53. For 1988, indexing was reestablished at 4.6%. Indexing was 5.3% for 1989, 4.8% for 1990, 4.3% for 1991, 3.6% for 1992, 2.5% for 1993, 1.2% for 1994, 2.3% for 1995, 1.6% for 1996, 2.2% for 1997, 2.3% for 1998, 2.6% for 1999, 3.7% for 2000, 5.3% for 2001 and 1.5% for taxable year 2002.
- h. The maximum tax rate was lowered from 11% to 9.3% for the 1987 taxable year. The number of tax brackets was reduced from 11 to 6. The preference tax was replaced with a 7% alternative minimum tax.
- i. For taxable years 1991 through 1995, 10% and 11% tax rates were added, increasing the maximum rate from 9.3% for all filing status types.
- j. Beginning taxable year 1996, the regular top marginal tax rate was reduced from 11% to 9.3% and alternative minimum tax rate was reduced from 8.5% to 7%.

APPENDIX A
TABLE 2
Personal Income Tax

PERSONAL AND DEPENDENT EXEMPTIONS, AND STANDARD DEDUCTIONS
FOOTNOTES

- a Temporary wartime provisions, enacted in 1943, increased personal exemptions of individuals filing as Married Filing Jointly (MFJ) Surviving Spouse¹ (SS), Single, and Head of Household (HOH) by \$1,000, and by \$500 for individuals filing as Married Filing Separately (MFS) and Estate filers.
- b Additional temporary wartime provisions, enacted in 1945, increased personal exemptions by another \$1,000 for MFJ, SS, Single, and HOH, and another \$500 for MFS. A standard deduction in lieu of itemized non-business deductions was introduced at that time. The standard deduction was 6% of adjusted gross income less dependent exemptions when the taxpayer used the tax from the “optional tax table”, or \$300 when the taxpayer was ineligible to use the optional tax table and chose not to itemize deductions.
- c The temporary personal exemption increase enacted in 1945 lapsed to 1943 levels for MFJ, SS, Single, and HOH filers. The temporary Estate exemption increase enacted in 1943 lapsed to 1942 levels.
- d The filing of MFJ and SS returns was made more attractive in this period. For MFJ and SS filers with an income of \$10,000 or more, the standard deduction was raised from \$300 to \$600.
- e Personal exemptions were reduced by \$500 for MFJ, SS, Single, and HOH filers, and was reduced by \$250 for MFS filers. The standard deduction was increased from 6% to 10% of adjusted gross income less dependent and blind exemptions when the taxpayer used the tax from the “optional tax table” rather than the Tax Rate Schedule. For persons ineligible to use the “optional tax table”, the standard deduction was increased from \$600 to \$1,000 for MFJ and SS filers and from \$300 to \$500 for all others.
- f(1). Beginning 1964, a flat standard deduction (regardless of the amount of adjusted gross income), replaced the variable deduction. Between 1964 and 1967 the flat standard deduction was \$1,000 for MFJ, SS, and HOH, and \$500 for all others.
- f(2). Beginning in 1966, taxpayers who were nonresidents for any part of the year were required to prorate their personal exemption, their dependent exemption, and their standard deduction.
- g Beginning in 1967, deductions were replaced by tax credits for personal and dependent exemptions.
- h The flat standard deduction was increased from \$1,000 to \$2,000 for MFJ, SS, and HOH and from \$500 to \$1,000 for Single and MFS. The \$50 exemption for HOH includes the first qualifying dependent; the exemption for each dependent thereafter was \$8.
- i For 1978 only, personal exemption credits increased from \$50 to \$200 for MFJ, SS, and HOH, and from \$25 to \$100 for Single and MFS filers.
- J Beginning taxable income year 1978, tax rates are adjusted to compensate for inflationary factors determined by the June to June change in the California Consumer Price Index (less 3% for 1978 and 1979 and full indexing for 1980 and subsequent years. Tax rates were indexed at 5.22% for 1978, 6.88% for 1979, 17.33% for 1980, 8.26% for 1981, 9.32% for 1982, -1.2% for 1983, 4.6% for 1984 and 1985, and 3.5% for 1986. Indexing was suspended for 1987. For 1988, indexing was reestablished at 4.6%. Indexing was 5.3% for 1989, 4.8% for 1990, 4.3% for 1991, 3.6% for 1992, 2.5% for 1993, 1.2% for 1994, 2.3% for 1995, 1.6% for 1996, 2.2% for 1997, 2.3% for 1998, 2.6% for 1999, 3.7% for 2000, 5.3% for 2001, and 1.5% for taxable year 2002.
- k Legislation passed in 1987 increased personal exemption credits and reestablished reset standard deductions (Stats. 1987, Ch. 1138). A limitation on itemized deductions and a phase out of personal exemptions for persons with high income was added.

¹ Also referred to as ‘Qualifying Widow(er) With Dependent Child’

APPENDIX A

TABLE 3

Corporation Tax

SYNOPSIS OF TAX RATES

FOOTNOTES

- a In 1936, the bank and corporation franchise tax was extended to public utilities, which were previously taxed on gross receipts.
- b Temporary provisions were enacted during World War II to reduce the franchise tax rate by 15%. This temporary reduction applied to taxable years ending in 1943 through taxable years ending in 1948.
- c The tax rate increase was effective for income earned on or after January 1, 1959. The minimum franchise tax increased to \$100, and was subsequently reduced to \$25 for credit unions with \$20,000 or less gross income, and for gold mining companies inactive since 1950.
- d The tax rate increase was effective for income earned on or after January 1 1967.
- e The tax rate increase was effective for taxable years ending after December 31, 1971. The minimum tax increased from \$100 to \$200 (Stats. 1971, [First Extraordinary Session] Ch.1).
- f The general tax rate for corporations was increased from 7.6% on July 1, 1973, to reach the full 9% on a monthly prorated basis with taxable years ending June 30, 1974 and thereafter. For 1973 calendar year corporations, the general tax rate was 8.3% and the bank and financial tax rate was 12.3% (Stats. 1972, Ch. 1406). The general tax rate was increased from 9% to 9.6% on January 1, 1980, to reach the full 9.6% on a monthly prorated basis with taxable years ending December 31, 1980 and thereafter (Stats. 1979, Ch. 1150).
- g The tax rate was decreased from 9.6% to 9.3% operative for taxable years beginning on or after January 1, 1987. The minimum franchise tax was increased from \$200 to \$300 for taxable years beginning after December 31, 1986, to \$600 for taxable years beginning after December 31, 1988, and \$800 for taxable years beginning after December 31, 1989 (Stats. 1987, Ch. 1139). For taxable years beginning on or after January 1, 1990, credit unions were no longer required to pay minimum franchise tax (Stats. 1989, Ch. 1222).
- h The in-lieu rate was statutorily set at 2% for taxable years ending in 1980 and 1981 (Stats. 1979, Ch. 1150), and for taxable years 1994, 1995, and 1996 (Stats. 1993, Ch. 31).
- i For taxable years beginning on January 1, 1997, the regular top marginal tax rate was reduced from 9.3% to 8.84% (Stats. 1996, Ch. 170).
- * The minimum franchise tax does not apply to corporations subject to the income tax rather than the franchise tax. Banks were exempted from the minimum franchise tax until 1980.
- ** The preference tax was replaced with an alternative minimum tax effective for taxable years beginning on or after January 1, 1987 (Stats. 1987, Ch. 1139).

- 1 Tax preference income is reported on Form FTB Schedule P and includes: excluded portion of capital gains; accelerated depreciation in excess of straight line; excess depletion, and several other statutory amounts.
- 2 Interest paid on borrowed money used for capital investments, other than mortgages.
- 3 Expanded income is adjusted gross income plus tax preference income less investment expenses.
- 4 Average tax rate is the net tax divided by the income, as defined in the income concept.
- 5 These returns with an average tax rate equal to or greater than 9% of the income concept used have either alternative minimum tax or the tax on accumulation distributions. See Revenue and Taxation Code Section 17062-17066 for alternative minimum tax or Sections 17731-17839 for rules relating to estates, trusts, beneficiaries, and decedents.

1 Tax preference income is reported on Form FTB Schedule P and includes: excluded portion of capital gains; accelerated depreciation in excess of straight line ; excess depletion, and several other statutory amounts.

2 Interest paid on borrowed money used for capital Investments, other than mortgages.

3 Expanded income is adjusted gross income plus tax preference income less investment expenses.

APPENDIX B
PERSONAL INCOME TAX TABLES

FOOTNOTES

1. Includes resident data only. May not be comparable to 1989 and prior years, which include resident, part-year resident, and nonresident return data. For comparison purposes, data results are displayed with both the pre-modified and modified methods.
2. The sampling method was modified for 1994 and subsequent years to improve the reliability and precision of estimates. The improved method induced minor changes in the estimates. For comparison purposes, data results are displayed with both the pre-modified and modified methods.
3. Starting in 1982, non-residents and part-year residents computed their tax on their total income and apportioned tax based on their California income. In prior years, the tax was based on California taxable income. Because of this change, adjusted gross income is not strictly comparable to 1982 and prior years.
4. Taxable income for 1967 and subsequent taxable years is not comparable to earlier years. In 1967, exemption credits were substituted for exemption exclusions, and taxable income was redefined as adjusted gross income less deductions rather than adjusted gross income less deductions and exemption exclusions.
5. Net sale of capital assets changed significantly in 1987 from prior California law (1972-1986). Due to the enactment of the Tax Reform Act of 1986, the entire amount of capital assets post-1986 is included in gross income. Gains are also realized on income from collections on pre-1987 installment sales. Beginning in 1987, capital losses from carryovers and carrybacks are fully deductible against capital gains. Up to \$3,000 (\$1,500 Single and Married Filing Separately) of excess capital loss is deductible against ordinary income. California has conformed to federal holding period rules with regard to long- and short-term gains and losses. California has also enacted a separate credit for gains from the sale of residential rental or farm property.
6. Personal exemption credit increased for 1978 and subsequent years and, therefore, is not comparable to that of earlier years.
7. California adjustments include adjustments to federal income. These include items such as unemployment compensation, social security benefits, various California interest incomes, railroad retirement benefits, California lottery winnings, IRA distributions and net operating loss carryovers.
8. When an individual return reported income from two or more sole proprietorships, all of the proprietorship incomes, profits and losses were combined and the resulting net profit or loss was recorded.
9. When an individual return reported income from two or more partnerships or S Corporations, all of the partnership and S corporation incomes, profits and losses were combined and the resulting net profit or loss was recorded.
10. All other federal income sources include net income for the disposition of non-capital assets, alimony received, miscellaneous income sources, social security and unemployment income, income from state and local income tax refunds, and taxable IRA income. It also includes net losses from estates and trusts, from miscellaneous income and from non-capital assets.
11. Includes contributions to both Individual Retirement Accounts and to Spousal Individual Retirement Accounts.
12. Amounts listed are self-assessed before audit. Because of major differences between federal and state law regarding deductible contribution limitations, actual amounts after audit reveal that these figures are generally overstated.
13. Total adjustments include amounts for IRA exclusion, moving expense, alimony paid, half self-employment tax, self-employed health insurance plan exclusion, self-employed retirement plan exclusion, and the penalty on early withdrawal of savings.
14. 'Total Contributions' is less than the total of cash, non-cash and carryover contributions because of the tax code requirement limiting contribution deductions that exceed a certain percentage of adjusted gross income.

APPENDIX B

PERSONAL INCOME TAX TABLES

FOOTNOTES

(continued)

15. All other deductions include un-reimbursed employee expenses, union dues, employment education expenses, handicap repairs, gambling losses and other miscellaneous deductions that exceed two percent of adjusted gross income.
16. Services consist of Professional Services, Personal Services, and Other Services. Professional Services include medical, dental and other health services; legal services; accounting, auditing and bookkeeping services; educational services; and engineering and architectural services. Personal Services include laundry, cleaning and dyeing establishments; barber and beauty shops; photographic studios; and funeral services and crematories. Other Services include lodging and recreational services; and automotive and other repair services.
17. Derived from all income sources, not just business income.
18. Data for Alpine County were aggregated because most categories of income have fewer than ten (10) returns.
19. Resident returns filed with an out-of-state address.
20. Unable to determine county of residence from tax return.
- a. Data are not shown for table entries with small numbers of taxpayers but are included in the appropriate totals.
- b. Data are not available.

APPENDIX C

CORPORATION TAX TABLES FOOTNOTES

- a The sampling method was modified for 1994 and subsequent years to improve the reliability and precision of estimates. The improved method produced minor changes in estimates.
- b Data not shown for table entries with 3 or fewer returns.
- 1 Corporations that sustained losses and those that 'broke even' (mostly inactive corporations and cooperatives) are included in this table.
- 2 Includes positive income only.
- 3 Includes stone, clay, and glass products; primary metals; ordinance and accessories manufacturers; electrical machinery and equipment; transportation equipment; other equipment; other fabricated metal and wood products except furniture; furniture and fixtures; and other manufacturers not elsewhere classified.
- 4 Includes paper and allied products; chemicals and allied products; petroleum, coal, and rubber products; beverages, food, and kindred products; textile mill products; apparel and products made from fabric; printing, publishing, and allied industries; precision equipment; tobacco manufacturers; and leather and leather products manufacturers.
- 5 Includes doctors, dentists, psychiatrists, physical therapists, and lawyers who are incorporated as professional corporations.
- 6 Includes motion picture production; amusement services; personal services; hotels; employment agencies; automotive repair services and garages; miscellaneous repair services and hand trades; medical and other health services; educational institutions and agencies; other professional and social service agencies and institutions; and corporations whose nature of business was not determinable.
- 7 National and state banks, savings and loan associations, and other financial institutions are subject to (a) the general franchise tax rate of 8.84% (or 1.5% if a financial S corporation) plus (b) the bank and financial in-lieu tax rate imposed under the provisions of Section 23186 of the Bank and Corporation Tax Law. For taxable years ending in December 1997 and after, the in-lieu rate was 2.0%, for a combined 10.84% (or 3.5% if a financial S corporation) tax rate. The bank and financial corporation rate is in lieu of all other local taxes and licenses, except real property taxes, automobile registration and license fees, sales taxes, utility users taxes, state energy resources, and emergency telephone surcharges.
- 8 Includes transportation, communications, electrical and gas utilities, and other public utilities.
